

# How to Export and Save Your Chrome Bookmarks

1. **Open Chrome** and click the icon with three vertical dots in the top-right corner.
2. Then **hover over *Bookmarks***. This will open a pop-up menu.
3. **Next, click *Bookmark manager***. Clicking this will open a new tab.

4. Then **click the icon with three vertical dots**. You will find this in the far upper right-hand corner of the Bookmarks search bar
5. **Next, click *Export Bookmarks***. Clicking this will automatically open the File Explorer where you will be able to save your bookmarks.

6. **Finally, choose a name and destination and click *Save*.** If you want to transfer your Chrome bookmarks to a new computer, you can save the HTML file to a flash drive or an external hard drive. Or, you can save your Chrome bookmarks to your desktop and email it to yourself as an attachment.

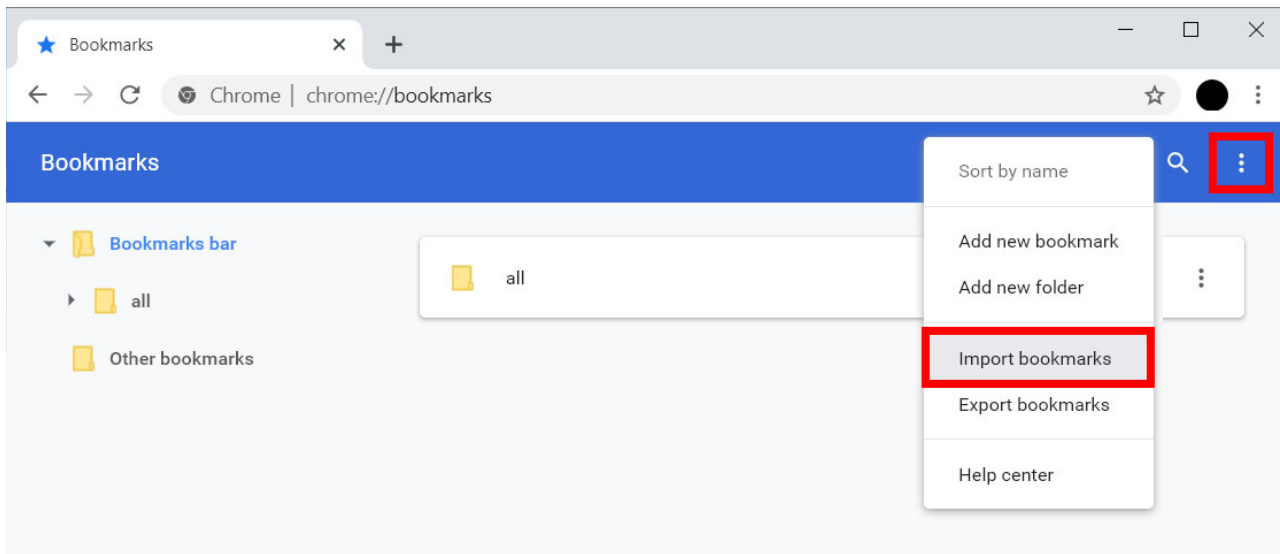

Now you are ready to import your Chrome bookmarks on a new computer! Follow these easy steps below:

## How to Import Chrome Bookmarks

1. **Open Google Chrome.**
2. **Click the icon with three vertical dots in the top-right corner.**
3. **Then go to *Bookmarks > Bookmark manager***
4. **Next, click on the icon with three vertical dots next to the search bar.** You will find this in the far upper right-hand corner of the Bookmarks search bar.

5. Then click **Import Bookmarks**. Clicking this will open your computer's Open File Explorer dialog box and prompt you to choose a file to load. Locate the HTML file you saved your bookmarks in to import your Chrome bookmarks.

6. Select the saved bookmarks HTML file and click **Open**. All your bookmarks will then be imported!
7. **PLEASE REMEMBER** to check that “Sync” is turned on in your FSD Chrome account so that all your bookmarks are saved and accessible no matter where you login at.
