COMMUNITY SCHOOL OF MUSIC & ART

Painter's first art contract!

community school of music and arts

Dear Teachers and Office Staff,

Welcome to Art classes with the Community School of Music and Arts (CSMA)! We look forward to working with your students this year, and we are excited to formally introduce your Art Teacher, Dani Vinueza!

EMAIL: dvinueza@arts4all.org

EDUCATION AND BACKGROUND

Dani Vinueza is a multilingual practicing artist from Chicago who has been working with children of all ages for over 10 years. She attended Loyola University, where she obtained her B.S. in Psychology with dual concentrations in developmental psychology as well as Women Studies and Gender Studies.

She spent four years working in an international primary school integrating a multi-dimensional, interdisciplinary and multicultural curriculum that links the arts, history and social movements. She has experience teaching preschool-8th grade, painting, drawing, studio arts, digital media and working with clay.

From the first mural she created at twelve years old, she has loved all creative endeavors and is constantly exploring new media and ways of working. She has furthered her foundations in art with formal instruction from the School of the Art Institute of Chicago where her passion for oil painting grew.

In addition to teaching and creating, Dani enjoys adventuring and exploring her new California home with her 13-year-old dog, Lacey.

TEACHING PHILOSOPHY

"I aim to foster creativity and design thinking in education and to provide relevant and engaging art experiences to all students while promoting how important art is in the world of education. I believe in the power of making art: encouraging my students to create works as they discover their own artistic voices.

As an educator, I take a holistic approach to addressing the emotional, social and cultural needs of my students making sure to provide an equitable experience. I partake in multiple instructional strategies addressing individual strengths and challenges to support their learning and development. I am honored and humbled to be in a position to bring arts to the next generation and inspire them to keep creating."

"Any form of art is a form of power; it has impact, it can affect change – it can not only move us, it makes us move." - Ossie Davis, in Jeanne Noble's *Beautiful, Also, Are the Souls of My Black Sisters: A History of the Black Women in America*.

SCIENCE FROM SCIENTISTS

Painter's first science contract started Tuesday 11/16 grades 3-5 with Dr. Esther.

Dr. Esther is a Ph.D. Ecology graduate from Cornell University. BIG RED!

Paid for by Genentech!
