

**Free NARCAN® Nasal Spray High School Program
Order and Terms and Conditions**

Free NARCAN® (naloxone HCl) Nasal Spray for High Schools Form and Terms and Conditions

The High School and/or State School District identified below (herein, the “School”) hereby acknowledges and agrees the NARCAN® (naloxone hydrochloride) Nasal Spray 4mg (“NARCAN®”, NDC # 69547-353-02) will be made available and distributed by Adapt Pharma, Inc. (“Adapt Pharma”) to the School free of charge under the *Free NARCAN® (naloxone hydrochloride) High School Program*. This program is conditioned upon the undersigned completing the following certification and the School represents and warrants to Adapt Pharma the following:

1. The undersigned is a school or school district whose primary purpose is education for students in grades 9 through 12 and is licensed as an educational facility.
2. The School will only purchase, receive and use NARCAN® in accordance with all applicable laws, rules and regulations. In addition, the School will provide to Adapt the appropriate medical license of the registered medical advisor representing the School.
3. The School is solely responsible for the proper and safe usage of the product, and training of any school personnel who administer NARCAN®. Narcan® is to be used strictly in accordance with its Full Prescribing Information and Instructions for Use, available below. By signing below, you certify that you have read and understood the Full Prescribing Information and Instructions for Use, including but not limited to the product indications and safety information, and that your institution will indemnify Adapt Pharma against any and all claims regarding the administration of the NARCAN® product.
4. NARCAN® received by the School will be for the School’s own use and the School shall not sell or transfer NARCAN® received pursuant to the Free NARCAN® High School Program to any non-school third party.
5. NARCAN® (naloxone hydrochloride) 4mg nasal spray received under this program is not returnable or refundable.
6. The order quantity pursuant to the Free NARCAN® High Schools Program is limited to **two units per School**.
7. Adapt Pharma will fulfil or refuse orders, or amend the Terms and Conditions, or discontinue the Free NARCAN® Program, at its sole discretion. The individual signing the Purchase Order and Terms and Conditions has all requisite authority to do so on behalf of the School. All of the information provided by the School is true, complete and accurate.
8. Except for the foregoing, it is understood that Narcan is being provided to your school without any quid pro quo or other expectation of benefit by Adapt Pharma of any kind.

I have read and certify to the foregoing terms and conditions:

If the requesting organization is a School District representing multiple/individual schools, a listing of all schools that will receive the free NARCAN® product must be provided.

Free NARCAN® Nasal Spray High School Program Order and Terms and Conditions

NARCAN NASAL SPRAY INDICATION AND IMPORTANT SAFETY INFORMATION

INDICATIONS

NARCAN® (naloxone hydrochloride) Nasal Spray is an opioid antagonist indicated for the emergency treatment of known or suspected opioid overdose, as manifested by respiratory and/or central nervous system depression. NARCAN® Nasal Spray is intended for immediate administration as emergency therapy in settings where opioids may be present. NARCAN® Nasal Spray is not a substitute for emergency medical care.

IMPORTANT SAFETY INFORMATION

NARCAN® Nasal Spray is contraindicated in patients known to be hypersensitive to naloxone hydrochloride.

Seek emergency medical assistance immediately after initial use, keeping the patient under continued surveillance.

Risk of Recurrent Respiratory and CNS Depression: Due to the duration of action of naloxone relative to the opioid, keep the patient under continued surveillance and administer repeat doses of naloxone using a new nasal spray with each dose, as necessary, while awaiting emergency medical assistance.

Risk of Limited Efficacy with Partial Agonists or Mixed Agonists/Antagonists: Reversal of respiratory depression caused by partial agonists or mixed agonists/antagonists, such as buprenorphine and pentazocine, may be incomplete. Larger or repeat doses may be required.

Precipitation of Severe Opioid Withdrawal: Use in patients who are opioid dependent may precipitate opioid withdrawal characterized by body aches, diarrhea, increased heart rate (tachycardia), fever, runny nose, sneezing, goose bumps (piloerection), sweating, yawning, nausea or vomiting, nervousness, restlessness or irritability, shivering or trembling, abdominal cramps, weakness, and increased blood pressure. In neonates, opioid withdrawal may be life-threatening if not recognized and properly treated and may be characterized by convulsions, excessive crying, and hyperactive reflexes. Monitor for the development of opioid withdrawal.

Risk of Cardiovascular (CV) Effects: Abrupt postoperative reversal of opioid depression may result in adverse CV effects. These events have primarily occurred in patients who had pre-existing CV disorders or received other drugs that may have similar adverse CV effects. Monitor these patients closely in an appropriate healthcare setting after use of naloxone hydrochloride.

The following adverse reactions were observed in a NARCAN Nasal Spray clinical study: increased blood pressure, musculoskeletal pain, headache, nasal dryness, nasal edema, nasal congestion, and nasal inflammation.
