

# Scarborough Fire Department

## Department Specific Information

“We must pick up what we put down” (If we put speedy dry down to contain a spill, we are responsible for the cleanup) If possible, place debris and used speedy dry in the wrecker that is hauling the vehicle away. If the wrecker is not an option (fuel spill not involving a vehicle accident), there are now 5 Gallon BLUE buckets with black construction bags in them on the Engines. Please use the black bags as liners for the BLUE buckets. Place used speedy dry into the black bags, bags can be placed in regular trash when you return from the call.

Take pictures of spill with the I-Pad and E-Mail to Deputy Deering [Gdeeri@Ci.Scarborough.Me.Us](mailto:Gdeeri@Ci.Scarborough.Me.Us)
