things to do around town!

Make your own soda!

## Avery's Beverages

520 Corbin Avenue, New Britain • (860) 224-0830

[www.averysoda.com](http://www.averysoda.com)

Sherman F. Avery began making soda in a red barn on Corbin Avenue in the summer of 1904. Avery's quickly became known for its variety of flavors, especially the Cream Soda, Birch Beer, Root Beer and Ginger Ale.

Their sodas are still handcrafted using methods and recipes from generations ago including real cane sugar, the finest quality ingredients and naturally pure well water. Each flavor is carefully made in small batches and is packaged only in glass bottles to preserve the wonderful old-fashioned flavor.

A visit to Avery's is a unique experience. It is truly a step back in time where you can actually invent your own soda flavors and take a tour of the soda factory, including the mixing room where you can measure syrup into each bottle, watch as they are filled, capped and hand shaken.

# Schools

The Consolidated School District of  
New Britain prides itself on the motto:  
“Pursuing Excellence...One Student at a Time.”

The school system’s mission is to provide a rigorous and relevant, high-quality, research-based, data-driven education that meets the intellectual, physical, moral, and social and emotional needs of every child. The school system consists of 19 different schools that serve more than 10,000 students. Alternative schooling is available, as are numerous special educational opportunities, ranging from special education to the Gifted and Talented program. Guidance, social work, speech, psychological and diagnostic testing

are also offered to students to make their education more productive and successful. New Britain is proud to have a diverse school population that hails from 69 different countries and speaks 60 different languages.

Collaborative efforts involving parents, educators, government officials, as well as health and social service agencies, have partnered to develop strategies and to ensure students have the skills necessary to be successful in life. Early intervention programs, literacy initiatives and summer enrichment programs are a few of the things being integrated into addressing educational needs.

In recent years, the public school system has been recognized nationally for the successes that students and teachers have achieved to improve the quality of student successes both inside and outside the classroom. This recognition has come from the National Civic League, along with the National Civic League, along with the Campaign for Grade-Level Reading.
