- Parent/Community concerns are about consistency with no costumes at music concerts, Orchestra works with Elementary, Junior High, and High School, but for junior high only concerts No costumes were allowed at the due to safety concerns and focus on the professionalism of the concert being performed. Some concerns were expressed over the etiquette at choir concerts. Yelling out during the concert was one major issue. Education on Etiquette for large groups in general needs to be part of the introduction process at all performance. What is acceptable behavior should be expected.
A question came up about using Summit instead of Canvas. Kaysville Junior High does not plan on using Summit. One reason is we are a feeder school to Davis High School who uses Canvas, we will continue to be consistent with them by using Canvas.
- THIS is a LEARNING INSTITUTION.
