USER: The letter E + the number zero (0) + your DEN

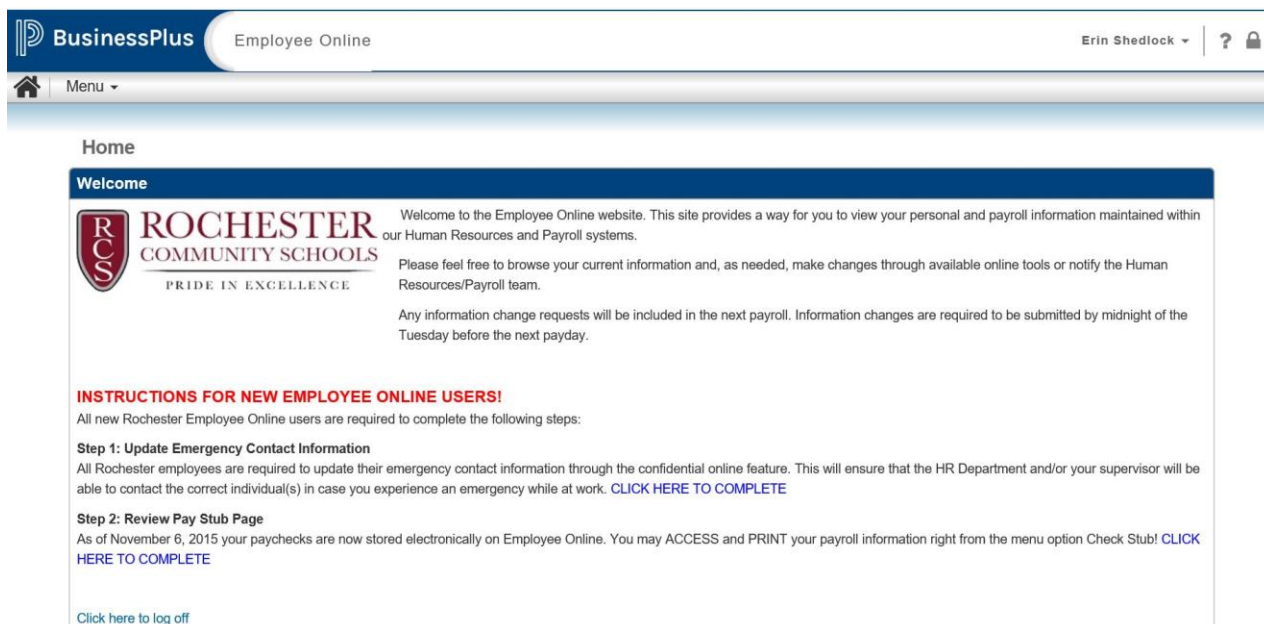

Example: E0555555

Password: The **first** time you login to Employee Online, your password will be the last four digits of your Social Security Number.

After that, it **must** be changed to something 12 characters in length and case sensitive.

If you do not remember your password, please choose Forgot Password, and a reset e-mail will come to your district e-mail. (This can take up to 30 minutes.)

If you are **locked out** of your account, please choose Forgot Password. A system generated password will be sent to your district e-mail. You will then need to use that password at the login screen to access the Change Password screen. At that point you will need to use the system generated password as your 'old password' to create a new password of your own.
