

Job title	Aquarist Intern
Reports to	Manager of Marine Science Center (MSC)

Job purpose (Overview)

The Aquarist Intern will assist in the proper care of the animal collection, including environmental requirements, nutrition, and the maintenance and appearance of all exhibits under the direct supervision of the MSC manager and specialist. Intern will assist in maintaining all department protocols, adhering to policies and fulfilling daily responsibilities assigned in supporting exhibits and operations. This is a non-paid internship and no housing is offered.

Key Duties and Responsibilities

Must have an interest in, and be willing to learn about aquarium keeping and the biology of the inhabitants. Should be fairly agile with the ability to climb on top of exhibits and up ladders, must be willing to get wet, perform "dirty" jobs and handle fish, squid, shrimp, etc. Interns will be performing similar tasks to staff Aquarists (water changes, exhibit cleaning, and food preparation).

Required Qualifications

- Proficient in written and spoken English
- Ability to work shifts between 9:00 AM-5:00 PM, for 4-8 hour shifts, and 2-3 days per week (including weekends preferably).
- Familiar with using excel and spreadsheets.
- High school diploma or above.

Application

If you are interested in applying for the post, please submit your application to hr@theharbourschool.edu.hk. Personal data collected will be used for recruitment purposes only.
