CITY OF NEW BRITAIN, CONNECTICUT

December 22, 2016

To the Mayor, Members of the Common Council and Citizens of the City of New Britain:

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of New Britain for the fiscal year ended June 30, 2016.

This report consists of management's representations concerning the finances of the City of New Britain. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of New Britain has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of New Britain's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of New Britain's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material aspects.

The City of New Britain's financial statements have been audited by Blum Shapiro, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of New Britain for the fiscal year ended June 30, 2015 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent audit concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City of New Britain's financial statements for the fiscal year ended June 30, 2016, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City of New Britain was part of a broader, state and federal mandated "Single Audit" designed to meet the special needs of state and federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of state and federal awards. These reports are located within the City's CAFR.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of New Britain's MD&A can be found immediately following the independent auditors' report.

The Reporting Entity and Its Services

The City of New Britain covers 13.3 square miles and was first settled as part of the Town of Berlin in 1680. It was incorporated as a separate Town in 1850 and chartered as a City in 1871.

New Britain has access to Interstate 91, a major north-south highway, and Interstate 84, an east-west route connecting New England and New York via Routes 9 and 72, a limited access highway which runs through the City. Direct highway access to Hartford has been improved with the completion of the northern leg of the Central Connecticut Expressway (Route 9).

A major private sector initiative, the creation of a special taxing district in the downtown core, enables property owners to pool their money toward special downtown projects. The New Britain Downtown District continues a multi-faceted program of streetscape improvements, coordinated management (maintenance and security) and marketing.

New Britain offers a variety of housing and is committed to neighborhood preservation. Walnut Hill, a National Historic District overlooking the heart of the City, features a 98-acre park, displaying some of America's rarest 19th century architecture. Over the past decade, older homes in the community have been completely renovated by their owners using a variety of specialty loan and grant programs. In addition, New Britain offers more than 800 housing units to its senior citizens.

Stanley Black & Decker, a Fortune 500 company, has located its world headquarters facility at a site along Interstate 84. In addition, the City has benefited from the recent growth of many small businesses representing a variety of sectors. TD Bank, a national leader in the financial sector has recently located its corporate headquarters in downtown New Britain. Webster Bank has also recently located offices in the North West section of town. Continued growth of City-based corporations will increase both employment and tax revenue.

New Britain is also home to the New Britain Bees beginning in April 2016 playing in a sports facility built to the standards established by the professional major leagues. It is home to the Museum of American Art (which recently underwent a 43,000 square foot, \$26 million renovation/expansion) and Central Connecticut State University with its schools of Education, Technology, and Business (which is the largest in the state).

The City offers ten major parks (A.W. Stanley, Stanley Quarter, Walnut Hill, Willow Brook, Osgood, Martha Hart, Washington, Chesley, Hungerford, and Willow Street). Stanley Quarter Park is New England's largest public skate park with multi levels, two quarter pipes, stairs, grinding rails and pyramids. Some additional attractions offered in many of the City's parks include: paddle boats, aqua cycles, fun-yaks, a children's fishing pond, soccer fields, playgrounds, jogging tracks and outdoor ice skating as well as Go Ape, a zip-line and treetop adventure.

Residents have a variety of medical facilities to call upon, including the 436- bed Hospital of Central Connecticut, the 200 bed Hospital for Special Care (formerly New Britain Memorial Hospital) for the chronically ill, and numerous modern clinics providing out-patient services. The University of Connecticut Health Center and Hospital is within three miles of the City line in the adjacent Town of Farmington.

Form of Government

New Britain became a consolidated City and Town in 1905 with a Mayor-Council-Commission form of Government. The Mayor and Council serve concurrent two-year terms and operate under a Charter adopted in 1961 with several subsequent revisions.

The Common Council, the legislative body elected biennially at large, consists of 15 Aldermen, 5 elected at large and 10 on a five-district basis (2 each). The other elected officials are City and Town Clerk, Collector of Taxes, Treasurer and three members of the Board of Tax Review.

The Mayor presides at meetings of the Common Council and makes appointments to Boards and Commissions as provided in the Charter or as created by ordinance. The Mayor is an ex-officio member of all bipartisan Boards and Commissions. All department heads report directly to the Mayor.

Major Initiatives

The City of New Britain is committed to the well-being and quality of life for its residents. However, due to the demands of City residents, the current administration has continued to make grand list growth a primary goal. One way to accomplish this goal is to expand the City's economic development efforts, while at the same time, monitoring, reviewing and validating all City expenditures, both operating and capital, to ensure fiscal conservatism.

In line with these objectives, the City has continued to sell properties to employers and entrepreneurs who are building and expanding to create new jobs for New Britain's workers. The City is currently in the process of a downtown streetscape project which will better promote traffic and businesses in the downtown area. The long-awaited \$579 million New Britain – Hartford Busway is a dedicated bus rapid transit roadway which opened in the spring of 2015. The busway connects New Britain and Hartford with stops at 11 stations along a 9.4 mile corridor bringing improved access and reduced commuting times for all commuters on I-84 west of Hartford.

In September 2014 the City sold a 15 acre parcel of land located at the Stanley Golf Course to Costco for \$4.1m which will be set up in a trust fund for the maintenance and development of Stanley Park. Costco has opened a warehouse/retail facility of approximately 150,000 square feet on this site. This facility is expected to generate 220 jobs and generate \$250,000 per year in tax revenue (\$500,000 after 7 years).

The City is currently in the process of finalizing details of a \$58 million development of mixed use housing and business. Polamer Precision opened in the Pinnacle business park with plans of future expansion. In the last year, the city has grown over 700 new jobs and 40 new businesses were opened. In addition, the City continues to leverage transportation oriented development opportunities with state and federal government to improve its downtown area.

The City has continued its multi-year street paving program again this year paving many streets and crumbling sidewalks. This program will be continued for several more years.

Financial Information

The Finance Department includes Accounting, Tax Assessment, Tax Collection, City Treasurer, Purchasing, Data Processing and Risk Management. The Accounting Division maintains, monitors and controls accounting records for City funds and has responsibility for banking relations and all bank accounts, as well as investment accounts for collecting or disbursing City funds. Bank and investment accounts are evaluated daily through on-line communication software.

Several years ago, the City installed a new state of the art accounting system. Consideration was given to the adequacy of internal accounting controls. Internal controls are designed to provide reasonable,

but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework. We believe that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary Controls

The accounts of the City are organized in funds. Each fund operates with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. Budgetary control of disbursements and encumbrances against appropriations is maintained by department, division or major activity. The City also maintains an encumbrance accounting system as one technique towards accomplishing budgetary control. Additionally, the Finance Department continues to monitor expenses throughout the fiscal year in an effort to keep the costs of running the City down.

Pension Programs

All full-time City employees, except for the certified employees of the Consolidated School District, the regular members of the Police Department hired after April 1, 2000 and the regular members of the Fire Department hired after July 1, 1995, are covered under a contributory pension plan administered by the Municipal Employees' Retirement Fund ("MERF"), a State of Connecticut multiple employer Public Employee Retirement System. Regular members of the Police and Fire Departments hired prior to April 1, 2000 and July 1, 1995 respectively, participate in contributory pension plans known as the Police Benefit Fund and the Firemen's Pension Plan. The certified faculty and administrative personnel of the Board of Education participate in the contributory defined benefit plan established under Chapter 167a of the Connecticut General Statutes that is administered by the Connecticut State Teacher's Retirement Board.

MERS is the administrator of a cost sharing multiple employer public employee retirement system ("CMERS") established by the State of Connecticut and administered by the State Retirement Commission to provide pension benefits for the employees of participating municipalities. MERS is considered to be a part of the State of Connecticut financial reporting entity and is included in the State's financial reports as a pension trust fund.

The City is the administrator of a single-employer public employee retirement system established and administered by the City to provide pension benefits for its Police and Fire Department employees. Benefits and contributions under this retirement system are established by the City and may be amended only by the City Council. The City's public employee retirement system is considered to be part of the City's financial reporting entity and is included in the City's financial reports as pension trust funds.

The City's OPEB liability is calculated to be \$xx million. The City's liability is relatively low because employees generally receive 7 years (10 years for Fire) of health benefits after twenty years of service.

Financial Policies

Several key policies have been developed and implemented that significantly affect the financial transactions of the City. The Fund Balance Policy is a safeguard to ensure that if the fund balance drops below five percent (5%) of operating expenditures, there will be a mechanism in place to increase the fund balance over a specified period of time. The OPEB Policy was implemented to ensure proper

funding of the City's OPEB trust fund. In addition, there are several policies that have been adopted to ensure proper investment of the City's funds, including the pension trust fund.

Debt Administration

At year end, the City had a number of debt issues outstanding. These included \$239m of general obligation bonds. Under current state statutes, the City's general obligation bonded debt issuances are subject to a legal limitation based on seven times total tax collections plus state reimbursement for revenue loss. As of June 30, 2015, the City's net general obligation bonded debt of \$239 million was well below the legal limit of \$861 million.

Risk Management

The City has not experienced any significant changes in the number and cost of insurance claims.

The City is self-insured with regards to the following types of coverage (not rounded):

Workers' Compensation (including Police and Firefighter Hypertension) - \$1 million/ occurrence. Excess coverage with statutory limits applies beyond the retainage.

General Liability (including law enforcement liability) - \$500,000/occurrence; excess coverage applies up to \$1 million/occurrence, \$2 million aggregate, \$9 million excess.

Employee Dishonest coverage limit of \$500,000 (except for individually bonded Tax Collector limit of \$200,000 & individually bonded Treasurer limit of \$125,000).

Employee Medical Benefits for Board of Education and City employees with the exception of Health Organization Coverage (HMO). Stop loss coverage applies after the City has paid \$200,000 individual claims. There is no aggregate stop loss.

First dollar Auto Liability coverage on all vehicles is placed with Argonaut Insurance Company; excess Auto Liability coverage is placed with Argonaut Insurance Company. All risk property coverage is placed with Lexington Insurance Company. Coverage provides replacement value for buildings and contents. Coverage for vacant and unoccupied buildings for which rehabilitation or sale is anticipated is provided by Admiral Insurance Company on an actual cash basis. Vacant property liability is provided by Nautilus Insurance Company.

The Corporation Counsel's Office is diligently defending the City's interest in all legal matters. The City has appropriated in the fiscal year 2014 annual budget \$400,000 to assist in current and future claim defense and settlement. The City's potential liability of active claims is reviewed and updated annually by an independent actuary and such liability is made part of the City's financial statements.

Independent Audit

State Statute and the City Charter require an annual audit by an independent certified public accountant. The Statute further prescribes that each municipality's annual report shall be prepared in accordance with Generally Accepted Accounting Principles (GAAP). This report has been prepared in accordance with these standards. The auditors' opinion has been included in this report.

Acknowledgements

The City has received the Certificate of Achievement for Excellence in Financial Reporting since the Fiscal Year of June 30, 2001. A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report could not have been accomplished without the efficient and dedicated services of Rebecca Salerni, Amy Goldsberry, Jonathan Perugini and the entire Finance Department staff. Special appreciation is conveyed to the representatives from Blum, Shapiro & Company, P.C. We also appreciate the continuing support of city leadership and the people of New Britain who are committed to fiscal integrity and financial leadership.

Respectfully submitted,

Lori Granato

Independent Auditors' Report

To the Honorable Mayor and Members of the
Common Council of the City of New Britain

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of New Britain, Connecticut, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City of New Britain, Connecticut's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of New Britain, Connecticut, as of June 30, 2016 and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 3 to the financial statements, during the fiscal year ended June 30, 2016, the City adopted new accounting guidance, GASB Statement No. 72, *Fair Value Measurement and Application*. Our opinion is not modified with respect to this matter.

Prior Period Adjustments

As discussed in Note 14 to the financial statements, during the fiscal year ended June 30, 2016, prior period adjustments were made with respect to the Town's participation in the State of Connecticut Municipal Employees' Retirement System. The System changed its method of accounting for receivables and the Town recognized the amount payable to the System for prior service costs. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 10, the budgetary comparison information on pages 66 through 69 and the pension schedules on pages 70 through 77 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of New Britain, Connecticut's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements

themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on them.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statement of the City of New Britain, Connecticut, as of and for the year ended June 30, 2015 (not presented herein), and have issued our report thereon dated December 12, 2015, which contained unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information. The accompanying General Fund balance sheet as of June 30, 2015 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the 2015 financial statements. The accompanying General Fund balance sheet has been subjected to the auditing procedures applied in the audit of the 2015 basic financial statements and certain additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the General Fund balance sheet is fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2015.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2016 on our consideration of the City of New Britain, Connecticut's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of New Britain, Connecticut's internal control over financial reporting and compliance.

Blum, Shapiro & Company, P.C.

West Hartford, Connecticut
December 22, 2016

**CITY OF NEW BRITAIN, CONNECTICUT
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016**

This discussion and analysis of the City of New Britain, Connecticut's (the City) financial performance is provided by management to provide an overview of the City's financial activities for the fiscal year ended June 30, 2016. Please read this MD&A in conjunction with the transmittal letter and the City's financial statements, Exhibits I to IX.

Financial Highlights

- The City's net position increased as a result of this year's operations. The net position of the business-type activities increased by \$1.2m, and the net position of the governmental activities increased by \$16.1 million.
- In its governmental activities, the City had revenues of \$335 million and expenses of \$320 million.
- In the City's business-type activities, revenues were \$11.9 million while expenses were \$9.4 million, thus increasing the net position before transfers of the business-type funds by \$2.5 million. The net position after transfers of the business-type funds increased by \$1.2m.
- The General Fund reported a fund balance of \$28.4 million.
- The tax collection rate for the current levy was 96.6%.

Overview of the Financial Statements

This annual report consists of a series of financial statements. The statement of net position and the statement of activities (Exhibits I and II, respectively) provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Fund financial statements are presented in Exhibit III to IX. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. The remaining statements provide financial information about activities for which the City acts solely as a trustee or agent for the benefit of those outside of the government.

Government-Wide Financial Statements

The analysis of the City as a whole begins on Exhibits I and II. The statement of net position and the statement of activities report information about the City as a whole and about its activities for the current period. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net position and changes in them. The City's net position, the difference between assets and liabilities, is one way to measure the City's financial health, or financial position. Over time, increases or decreases in the City's net position are one indicator of whether its financial health is improving or deteriorating. The reader needs to consider other nonfinancial factors, however, such as changes in the City's property tax base and the condition of the City's capital assets, to assess the overall health of the City.

In the statement of net position and the statement of activities, we divide the City into two types of activities:

- *Governmental activities* - Most of the City's basic services are reported here, including education, public safety, public works, health and welfare, parks, recreation and libraries, and general administration. Property taxes, charges for services, and state and federal grants finance most of these activities.
- *Business-type activities* - The City charges a fee to customers to help it cover all or most of the cost of certain services it provides. The City's Water Department is reported here.

Fund Financial Statements

The fund financial statements begin with Exhibit III and provide detailed information about the most significant funds - not the City as a whole. Some funds are required to be established by Charter. However, the City Council establishes many other funds to help control and manage financial activities for particular purposes (such as the Sewer Fund) or to show that it is meeting legal responsibilities for using grants and other money (such as grants received from the State and Federal Governments for education). The City's funds are divided into three categories: governmental, proprietary and fiduciary.

- Governmental funds (Exhibits III and IV) - Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is described in a reconciliation included with the fund financial statements.
- Proprietary funds (Exhibits V, VI and VII) - When the City charges customers for the services it provides, whether to outside customers or to other units of the City, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the statement of net position and the statement of activities. In fact, the City's enterprise funds (a component of proprietary funds) are the same as the business-type activities reported in the government-wide statements, but provide more detail and additional information, such as cash flows, for proprietary funds. Internal service funds (the other component of proprietary funds) are used to report activities that provide supplies and services for the City's other programs and activities - such as the City's Self-Insurance Internal Service Fund.
- Fiduciary funds (Exhibits VIII and IX) - The City is the trustee, or fiduciary, for its employees' pension plans. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. All of the City's fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position. These activities are excluded from the City's other financial statements because the City cannot use these assets to finance its operations. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

Government-Wide Financial Analysis

The City's combined net position is higher than it was one year ago, increasing from \$113 million to \$130 million. The analysis below focuses on the net position (Table 1) and changes in net position (Table 2) of the City's governmental and business-type activities.

TABLE 1
SUMMARY STATEMENT OF NET POSITION

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2016	2015	2016	2015	2016	2015
Current Assets	\$ 117,914	\$ 105,716	\$ 9,294	\$ 8,398	\$ 127,208	\$ 114,114
Capital assets:						
Capital assets not being depreciated	39,333	60,721	1,977	1,977	41,310	62,698
Capital assets being depreciated, net	309,774	274,617	53,188	54,564	362,962	329,181
Total assets	<u>467,021</u>	<u>441,054</u>	<u>64,459</u>	<u>64,939</u>	<u>531,480</u>	<u>505,993</u>
Deferred Outflows of Resources	<u>28,821</u>	<u>18,353</u>	<u>885</u>	<u>931</u>	<u>29,706</u>	<u>19,284</u>
Long-term debt outstanding	347,286	316,492	14,490	16,305	361,776	332,797
Other liabilities	68,718	69,365	345	277	69,063	69,642
Total liabilities	<u>416,004</u>	<u>385,857</u>	<u>14,835</u>	<u>16,582</u>	<u>430,839</u>	<u>402,439</u>
Deferred Inflows of Resources		<u>9,809</u>			-	<u>9,809</u>
Net Position:						
Net investment in capital assets	138,395	138,868	41,799	41,387	180,194	180,255
Restricted	3,814	3,311			3,814	3,311
Unrestricted (deficit)	<u>(62,371)</u>	<u>(78,438)</u>	<u>8,710</u>	<u>7,901</u>	<u>(53,661)</u>	<u>(70,537)</u>
Total Net Position	<u>\$ 79,838</u>	<u>\$ 63,741</u>	<u>\$ 50,509</u>	<u>\$ 49,288</u>	<u>\$ 130,347</u>	<u>\$ 113,029</u>

Net position of the City's governmental activities increased in FY16 by 25% (\$80 million compared to \$67 million). Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements - totaled \$(62) million at June 30, 2016.

This increase in governmental net position resulted primarily due to the following factors:

- Capital assets increased by \$13.7m due to several large-scale projects (street rehab and telecommunications upgrades).
- Deferred outflows related to the City's share in MERS (Municipal Employee Retirement System) have decreased.
- The January 2016 refunding allowed the annual cost of debt service payments to remain relatively low compared to past years.

The net position of business-type activities increased by 2.5% (\$50.5 million compared to \$49.2 million) in 2016.

This increase in the net position of business-type activities resulted primarily due to the following factors:

- A 3.9% increase in the amount of water receivables outstanding (\$4.3m as compared to \$4.1m)
- A 17.5% increase in the amount of cash and cash equivalents (\$4.7m as compared to \$4m)

*Prior year balances in Tables 1 and 2 were restated to reflect changes to the MERS plan as stated in Note 14.

The City's combined revenues were \$347 million. The total cost of all programs and services was \$329.9 million.

Our analysis below separately considers the operations of governmental and business-type activities.

Governmental Activities

Revenues for governmental activities totaled \$335.3 million; property taxes (37.9%), operating grants (44%) and charges for services (6.5%) are the major revenue sources - contributing approximately 88.4% of the City's revenues.

Expenses for governmental activities were \$320.4 million, of which 57.5% were supported by program revenues and 42.5% were supported from general revenues. Expenses by function include education (60.7%), public safety (17.8%), public works (6.4%), and parks, recreation and libraries (4.3%), which made up 89.2% of the total governmental expenses.

Table 3 presents the cost of each of the City's four largest programs - education, public safety, public works, and general government - as well as each program's net cost (total cost less revenues generated by the activities). The net cost shows the final burden that was placed on the City's tax payers by each of these functions.

**TABLE 3
GOVERNMENTAL ACTIVITIES**

	Total Cost of Services		Net Cost of Services	
	2016	2015	2016	2015
Education	\$ 194,594	\$ 182,914	\$ 41,313	\$ 48,048
Public safety	57,112	56,019	51,858	51,458
Public works	20,661	28,358	(4,036)	11,009
General government	12,907	3,687	10,846	(2,033)
All others	35,188	48,581	27,559	41,657
Totals	<u>\$ 320,462</u>	<u>\$ 319,559</u>	<u>\$ 127,540</u>	<u>\$ 150,139</u>

Business-Type Activities

Revenues and expenses of the City's business-type activities amounted to \$11.9 million and \$9.4million, respectively. Net position increased by \$1.2 million.

City Funds Financial Analysis

Governmental Funds

As the City completed the year, its governmental funds (as presented in the balance sheet - Exhibit III) reported a combined fund balance of \$5.5) million, which is an increase from last year's total of \$(8.5) million. The increase in the fund balance can be attributed to the operating surplus for FY 2016.

Proprietary Funds

The City's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the Water Enterprise Fund amounted to \$8.7 million and those for the internal service funds amounted to \$2m. The increase in unrestricted net position for the Water Enterprise Fund of \$.08m was mainly a result of an increase in receivables. The decrease in unrestricted net position for the internal service funds was due to an increase in claim reserves.

General Fund Budgetary Highlights

- The General Fund received \$564 thousand in cash from sale of delinquent tax liens.
- The General Fund received \$500 thousand in bond/BAN premium
- The General Fund received \$1.9m from BFFROC in surplus distribution
- Debt service expenditures were reduced by \$3.9m due to a debt restructuring

Capital Asset and Debt Administration

Capital Assets

At June 30, 2016, the City had \$404 million invested in a broad range of capital assets, including land, buildings, park facilities, vehicles and equipment, roads, bridges, and water and sewer lines - Table 4. This amount represents a net increase (including additions and deductions) of \$13.7 million, or 3.5% above last year.

TABLE 4
CAPITAL ASSETS

	Governmental Activities		Business-Type Activities		Total	
	2016	2015	2016	2015	2016	2015
Land	\$ 13,417	\$ 13,417	\$ 1,977	\$ 1,977	\$ 15,394	\$ 15,394
Construction in progress	25,916	47,304			25,916	47,304
Buildings and improvements	227,701	202,324			227,701	202,324
Equipment	9,067	2,983			9,067	2,983
Vehicles	5,904	3,425			5,904	3,425
Infrastructure	67,102	65,885			67,102	65,885
Water filtration assets			53,188	56,022	53,188	56,022
Totals	\$ <u>349,107</u>	\$ <u>335,338</u>	\$ <u>55,165</u>	\$ <u>57,999</u>	\$ <u>404,272</u>	\$ <u>393,337</u>

For governmental-type funds, this year's major additions included various street and telecommunication projects that have continued throughout the year.

More detailed information about the City's capital assets is presented in Note 5 to the financial statements.

Long-Term Debt

At June 30, 2016, the City had \$241,310 in bonds and notes outstanding versus \$246,925 last year - a decrease of 2.3% - as shown in Table 5.

TABLE 5
OUTSTANDING DEBT

	Governmental Activities		Business-Type Activities		Total	
	2016	2015	2016	2015	2016	2015
General Obligation Bonds (backed by the City)	\$ <u>239,294</u>	\$ <u>244,909</u>	\$ <u>2,016</u>	\$ <u>2,016</u>	\$ <u>241,310</u>	\$ <u>246,925</u>

The City's general obligation bond rating from Standard & Poor's, Moody's, and Fitch all national rating agencies, is A+, Baa1 and A- respectively. The State limits the amount of general obligation debt that cities can issue based on formula determined under State Statutes based on type of debt and tax base. The City's outstanding general obligation debt is significantly below this \$861 million state-imposed limit.

Other obligations include accrued vacation pay and sick leave and liabilities from two interest rate swaps. More detailed information about the City's long-term liabilities is presented in Note 8 to the financial statements.

Economic Factors and Next Year's Budgets and Rates

The City's elected and appointed officials considered many factors when setting the fiscal year 2015 budget tax rates and fees that will be charged for the business-type activities. One of those factors is the economy. Unemployment in the City now stands at 6.2% versus 11.3% a year ago. This compares with the State's unemployment rate of 5.1% and the national rate of 4.9%.

These indicators were taken into account when adopting the General Fund budget for 2016-17. Amounts available for appropriation in the General Fund were \$15 million, an increase of 66% over the final 2014 amount of \$5 million.

Contacting the City's Financial Management

This financial report is designed to provide citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Department, City of New Britain, 27 West Main Street, New Britain, Connecticut 06051.

(Continued on next page)

CITY OF NEW BRITAIN, CONNECTICUT
BALANCE SHEET - GOVERNMENTAL FUNDS (CONTINUED)
JUNE 30, 2016
(In Thousands)

Reconciliation of the Balance Sheet - Governmental Funds
to the Statement of Net Assets:

Amounts reported for governmental activities in the statement of net assets (Exhibit I) are
different because of the following:

Fund balances - total governmental funds (Exhibit III)	\$ 5,553
--	----------

Capital assets used in governmental activities are not financial
resources and, therefore, are not reported in the funds:

Governmental capital assets	\$ 605,626	
Less accumulated depreciation	<u>(256,519)</u>	
Net capital assets		349,107

Other long-term assets are not available to pay for current-period
expenditures and, therefore, are not recorded in the funds:

Property tax receivables greater than 60 days	9,093
Interest receivable on property taxes	13,237
Housing loans receivable	4,321
Sewer receivable	3,550
Deferred outflows related to MERS proportional share	268
Deferred outflows related to investment returns	17,433
Deferred outflows related to contributions made subsequent to the measurement date	6,949

Internal service funds are used by management to charge the costs of
risk management to individual funds. The assets and liabilities of
the internal service funds are reported with governmental activities
in the statement of net assets.

1,929

Long-term liabilities, including bonds payable, are not due and payable
in the current period and, therefore, are not reported in the funds:

Bonds and notes payable	(239,294)
Clean water notes payable	(3,076)
Interest payable on bonds and notes	(3,770)
Prior service costs	(48)
Compensated absences	(6,755)
Net pension liability	(68,790)
Net OPEB obligation	(1,602)
Deferred charges on refunding	4,171
Unamortized bond premium	<u>(12,438)</u>

Net Assets of Governmental Activities (Exhibit I)	\$ <u><u>79,838</u></u>
---	-------------------------

(Continued on next page)

CITY OF NEW BRITAIN, CONNECTICUT
STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES
GOVERNMENTAL FUNDS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2016
(In Thousands)

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund

Balances - Governmental Funds to the Statement of Activities:

Amounts reported for governmental activities in the statement of activities (Exhibit II) are different because:

Net change in fund balances - total governmental funds (Exhibit IV)	\$ 14,135
---	-----------

Governmental funds report capital outlays as expenditures. In the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:

Capital outlay and other expenditures	24,890
Depreciation expense	(11,103)

The statement of activities reports losses arising from the trade-in of existing capital assets to acquire new capital assets. Conversely, governmental funds do not report any gain or loss on a trade-in of capital assets.	(18)
---	------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, and revenues recognized in the funds are not reported in the statement of activities:

Property tax receivable - accrual basis change	692
Property tax interest and lien revenue - accrual basis change	3,914
Housing loans receivable	(190)
Sewer receivables	220
Change in deferred inflows related to investment returns	9,809

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are amortized and deferred in the statement of activities. The details of these differences in the treatment of long-term debt and related items are as follows:

Proceeds from bond refunding	(44,545)
Payment to bond escrow	51,169
Bond principal payments	2,610
Payments on clean water fund notes	349
Premium on general obligation bonds	(7,086)

Some expenses reported in the statement of activities do not require the use of current resources and, therefore, are not reported as expenditures in the governmental funds:

Compensated absences	755
Change in prior service costs	7
Accrued interest	(1,391)
Amortization of deferred charge on refunding	(482)
Amortization of bond premium	1,378
Net OPEB expense	(165)
Net pension expense	(25,027)
Change in deferred outflows related to investment returns	11,515
Change in deferred outflow related to actuarial experience	(5,412)
Change in deferred outflows related to MERS proportional share	268
Change in deferred outflows related to contributions made subsequent to the measurement date	960

Internal service funds are used by management to charge costs to individual funds. The net revenue of certain activities of internal services funds is reported with governmental activities.	(11,155)
---	----------

Change in Net Assets of Governmental Activities (Exhibit II)	<u>\$ 16,097</u>

**CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

(amounts expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of New Britain (the City) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant policies of the City are described below.

A. Reporting Entity

Primary Government

The City of New Britain, Connecticut (the City) became a consolidated City in 1905 with a Mayor-Council-Commission form of government. The Mayor and Council serve concurrent two-year terms and operate under a Charter adopted in 1961, with the latest revision in 2002. The Common Council, the legislative body, consists of fifteen (15) Aldermen elected biennially at large. Other elected officials include the City and Town Clerk, Collector of Taxes, Treasurer and three members of the Board of Tax Review.

The municipal budget is prepared by the Board of Finance and Taxation and the Mayor who submits his recommendation to the Common Council for adoption.

All department heads report directly to the Mayor.

The City has the power to incur indebtedness by issuing bonds or notes as provided by Charter and Connecticut General Statutes.

The City operates and maintains a public water supply system, known as the City of New Britain Water Department.

The City has a Redevelopment Agency that operates as a function of the Commission on Community and Neighborhood Development (the Commission). The Commission is also charged with the responsibility of administering the City's Small Cities Programs.

The City provides the following services as authorized by its Charter: Education, Water, Sewer, Refuse, Public Works, Public Safety, Parks, Recreation, Libraries and Health and Human Services.

Joint Ventures

The City is a participant in one joint venture as described below.

Bristol Resource Recovery Facility Operating Committee

The City is a participant with fourteen other cities and towns in a joint venture, the Bristol Resource Recovery Facility (BRRFOC). BRRFOC was created pursuant to an Inter-Community Agreement to exercise certain rights on behalf of the Contracting Municipalities in dealing with the trash-to-energy plant built by Ogden Martin Systems of Bristol, Inc., now known as Covanta Bristol, Inc. (Covanta). The governing board consists of City officials appointed by each of the participating municipalities, and assumes all the management decisions.

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

Fund balance of the General Fund for fiscal year ended June 30, 2016 as reflected in BRRFOC's financial statements is \$1.8 million. A complete set of financial statements for BRRFOC can be obtained from the administrative office at 43 Enterprise Drive, Bristol, Connecticut 06010.

Jointly Governed Organizations

The Mattabassett District

The Mattabassett District is a quasi-municipal district established in accordance with State statutes to provide sewer treatment services for the Towns of Berlin, Cromwell and the City of New Britain. A twelve-person Board of Directors is appointed by the member towns with New Britain appointing the majority of members seven, Berlin appoints three members and Cromwell appoints two members. The Board of Directors is responsible for hiring, firing, purchasing, administration, budget adoption and fiscal operations. The District may issue bonds in its own name. The Mattabassett District levies its annual assessment, which the City is obligated to pay.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the City. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements, except for agency funds which have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, charges for services, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received.

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund. It accounts for all financial resources of the City, except those required to be accounted for in another fund. The major sources of revenue for this fund are property taxes and governmental grants.

The Capital Projects Fund is used to account for the financial resources for the acquisition or construction of major capital facilities, other than those financed by proprietary funds. The major sources of revenue for this fund are bond proceeds and governmental grants.

The BOE State and Federal Grants Fund accounts for educational grant programs funded by the federal and state government and other local agencies. The major source of revenue for this fund is governmental grants.

The City reports the following major proprietary funds:

The Water Enterprise Fund accounts for all activities related to the transmission and distribution of drinking water.

Additionally, the City reports the following fund types:

The Internal Service Funds account for the risk management activities for the City.

The Pension and OPEB Trust Fund accounts for the activities of the New Britain police and fire retirement system, which accumulates resources for pension benefit payments to qualified City employees and also the activities of the City and Board of Education for other post employment benefits payments to qualified retired employees.

The Agency Funds account for funds held by the City on behalf of students and others.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes and other charges between certain City's functions because the elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include property taxes.

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water Enterprise Fund, and of the City's Internal Service Funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed. Unrestricted resources are used in the following order: committed, assigned then unassigned.

D. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements and certain other investments as described in Note 3.

Investments for the City are reported at fair value.

E. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." All trade and property tax receivables are shown net of an allowance for uncollectibles.

The City's property taxes are levied each June on 70% of the assessed value listed on the prior October 1 Grand List for all taxable property located in the City. Although taxes are levied in June, the legal right to attach property does not exist until July 1 and, as such, taxes are due and payable in two installments on July 1 and January 1 following the date of the Grand List. Taxes are overdue on August 1, and interest is levied at 1-1/2% per month. The City files liens against property if taxes, which are due July 1, remain unpaid on the following June 30.

The City has established a reserve in the amount of \$4,930 for property taxes receivable and interest receivable that are deemed to be uncollectible.

F. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

G. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets, other than infrastructure assets, are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of five years. The government reports infrastructure on a subsystem basis. Accordingly, the amounts spent for the construction or acquisition of infrastructure assets are capitalized and reported in the government-wide financial statements regardless of their amount.

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities) the government chose to include all such items regardless of their acquisition date or amount. The government was able to estimate the historical cost for the initial reporting of these assets through backtracking (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-index to deflate the cost to the acquisition year or estimated acquisition year). As the government constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. In the case of donations, the government values these capital assets at the estimated fair value of the item at the date of its donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant and equipment of the primary government is depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	25-50
Building improvements	20
Machinery and equipment	5-20
Vehicles	5
Infrastructure	10-65

H. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period or periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City reports a deferred charge on refunding and deferred outflows related to pension in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. A deferred outflow of resources related to pension

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees).

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period or periods and so will not be recognized as an inflow of resources (revenue) until that time. For governmental funds, the City reports unavailable revenue, which arises only under the modified accrual basis of accounting. The governmental funds report unavailable revenues from several sources: property taxes, grant receivables, sewer fees and long-term loans. These amounts are deferred and recognized as an inflow of resources (revenue) in the period in which the amounts become available.

I. Compensated Absences

Under the terms of its various union contracts, City and Board of Education employees are permitted to accumulate earned but unused sick pay benefits and, with approval, vacation benefits. The accumulated liability for sick time and vacation, as reported in the governmental funds, at the end of fiscal year was valued at \$6,755. The City and Board of Education compensated absences is generally liquidated by the General Fund.

J. Net Pension Liability

The net pension liability is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service (total pension liability), net of the pension plan's fiduciary net position. The pension plan's fiduciary net position is determined using the same valuation methods that are used by the pension plan for purposes of preparing its statement of fiduciary net position. The net pension liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period.

K. Net OPEB Obligations

The net OPEB obligation represents the cumulative difference between the OPEB cost and the City's contributions to the plans. These amounts are calculated on an actuarial basis and are recorded as noncurrent assets and/or noncurrent liabilities, accordingly, in the government-wide financial statements.

L. Long-Term Obligations

In the government-wide financial statements and proprietary fund types, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of any significant applicable bond premium or discount. Bond issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

(amounts expressed in thousands)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

M. Fund Equity

Equity in the government-wide financial statements is defined as “net position” and is classified in the following categories:

Net Investment in Capital Assets

This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

Restricted Net Position

Net position is restricted because it is externally imposed by creditors (such as through debt covenants), grantors, contributors or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

This component consists of net position that does not meet the definition of “restricted” or “invested in capital assets.”

The equity of the fund financial statements is defined as “fund balance” and is classified in the following categories:

Nonspendable Fund Balance

This represents amounts that cannot be spent due to form (e.g., inventories and prepaid amounts).

Restricted Fund Balance

This represents amounts constrained for a specific purpose by external parties, such as grantors, creditors, contributors or laws and regulations of their governments.

Committed Fund Balance

This represents amounts constrained for a specific purpose by a government using its highest level of decision-making authority (City of New Britain Common Council). A resolution approved by the Common Council of the City of New Britain is required to modify or rescind a fund balance commitment.

Assigned Fund Balance

This balance represents amounts constrained for the intent to be used for a specific purpose by a governing board or a body or official that has been delegated authority to assign amounts by the City Charter.

Unassigned Fund Balance

This represents fund balance in the General Fund in excess of nonspendable, restricted, committed and assigned fund balance. If another governmental fund has a fund balance deficit, it is reported as a negative amount in unassigned fund balance.

**CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

(amounts expressed in thousands)

N. Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

The City uses the following procedures in establishing the budgetary data included in the financial statements for the General Fund, the City's only budgeted fund.

City department heads are required to submit to the Mayor estimates in detail of the amounts of money required by their department for the ensuing fiscal year. For these submissions, the Mayor and the Board of Finance and Taxation shall prepare an annual budget of the City. The proposed budget shall include the rate of taxation, a statement of bonds to mature and interest payable as well as the capital budget. The final vote of the Common Council to approve the Mayor's proposed budget for the ensuing fiscal year shall be by majority vote. If the Mayor shall disapprove, he shall issue a veto message and a two-thirds vote of the Common Council shall be required to override the veto.

Advisory budgets for Special Revenue Funds which are utilized to account for specific grant programs are established in accordance with the requirements of the grantor agencies. In some instances such budgets comprehend more than one fiscal year and are comprehending a fiscal period that does not coincide with the City's fiscal year. Such budgets are not legally adopted by the City.

Legal authorization for Capital Projects Fund spending is provided by the related bond ordinances and/or intergovernmental grant agreements.

Special appropriations requiring an increase in estimated income and expenditures in any fund shall be approved by two-thirds vote of the Common Council. A transfer of monies external to a departmental budget shall be authorized by a majority vote of the Common Council. The Mayor shall be authorized to transfer monies within a department budget upon written request. The limit for any individual line item transfer shall depend on its classification, which is spelled out in the ordinance.

An additional \$20 was appropriated during the fiscal year.

The City's budgeting system requires accounting for certain transactions be on a basis other than generally accepted accounting principles (GAAP basis). A major difference between the budget and GAAP basis is that encumbrances are recognized as a charge against a budget appropriation in the year in which the purchase order is issued, and, accordingly, encumbrances outstanding at year-end are recorded in budgetary reports as expenditures in the current year, whereas, on a GAAP basis, encumbrances are recorded as reservations of fund balance.

Unencumbered appropriations lapse at year-end with the exception of the Capital Projects Fund.

Also, in accordance with the provision of GASB Statement No. 24, the City has reported "on-behalf" payments made by the State of Connecticut into the teachers' retirement system in the governmental funds.

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year end are reported and included in either restricted, committed or assigned fund balance depending on their level of restriction and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

B. Deficit Fund Equity

The following funds have a deficit fund balance/net position at June 30, 2016:

Nonmajor:

Special Revenue Funds:	
Stanley Quarter Park	\$ 1,119
Cemetery	252
Police & Youth Grants	11
New Britain Marketing Collaborative	7
21st Century After School Grant	3
Exercise the Right Choice	3
Exercise the Right Choice II	7
Immunization Action Plan	1
Bullet Proof Vest Grant	19
System of Care Grant	28
Public Safety	110
Centralized and Distribution Services	236
Federal Omnibus Appropriation	20
CT Health Foundation	1
Highway Safety	237
Assistance to CCSU Police Department	56
Public Works Grant	187
Fireworks fund	38
Business Outreach Center	52
Emergency Shelter Grant	39
Redevelopment Commission	6
Brownfield Park	5
EFSP Program	13
Neighborhood Stabilization Program	53
Cops Hiring Grant	52
Busway Bike Trails	21
Capital Projects Fund	35,369
Internal Service Funds:	
Health Insurance Fund	7,082

The Special Revenue Funds and Internal Service Funds deficit balances will be eliminated by program income. In the Capital Projects Fund, bonding and State grants will be used to fund the deficit balance.

**CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS

(amounts expressed in thousands)

C. Overexpended Appropriations

The legal budget was overexpended during the current year. The following items were overexpended:

<u>Department</u>	<u>Final Budget</u>	<u>Actual</u>	<u>Variance</u>
Pension and Benefit Contributions	\$ 11,498	\$ 17,898	\$ (6,400)
Dog Fund		464	(464)

3. CASH, CASH EQUIVALENTS AND INVESTMENTS

The deposit of public funds is controlled by the Connecticut General Statutes (Section 7-402). Deposits may be made in a "qualified public depository" as defined by Statute or, in amounts not exceeding the Federal Deposit Insurance Corporation insurance limit, in an "out of state bank" as defined by the Statutes, which is not a "qualified public depository."

The Connecticut General Statutes (Section 7-400) permit municipalities to invest in: 1) obligations of the United States and its agencies, 2) highly rated obligations of any state of the United States or of any political subdivision, authority or agency thereof, and 3) shares or other interests in custodial arrangements or pools maintaining constant net asset values and in highly rated no-load open end money market and mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations. Other provisions of the Statutes cover specific municipal funds with particular investment authority. The provisions of the Statutes regarding the investment of municipal pension funds do not specify permitted investments. Therefore, investment of such funds is generally controlled by the laws applicable to fiduciaries and the provisions of the applicable plan.

The Statutes (Sections 3-24f and 3-27f) also provide for investment in shares of the State Short-Term Investment Fund (STIF) and the State Tax Exempt Proceeds Fund (TEPF). These investment pools are under the control of the State Treasurer, with oversight provided by the Treasurer's Cash Management Advisory Board, and are regulated under the State Statutes and subject to annual audit by the Auditors of Public Accounts. Investment yields are accounted for on an amortized-cost basis with an investment portfolio that is designed to attain a market-average rate of return throughout budgetary and economic cycles. Investors accrue interest daily based on actual earnings, less expenses and transfers to the designated surplus reserve, and the fair value of the position in the pool is the same as the value of the pool shares.

Deposits

Deposit Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the City's deposit will not be returned. The City does not have a deposit policy for custodial credit risk. The deposit of public funds is controlled by the Connecticut General Statutes. Deposits may be placed with any qualified public depository that has its main place of business in the State of Connecticut. Connecticut General Statutes require that each depository maintain segregated collateral (not required to be based on a security agreement between the depository and the municipality and, therefore, not perfected in accordance with federal law) in an amount equal to a defined percentage of its public deposits based upon the depository's risk-based capital ratio.

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

Based on the criteria described in GASB Statement No. 40, *Deposits and Investment Risk Disclosures*, \$65,491 of the City's bank balance of \$67,491 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$ 58,742
Uninsured and collateral held by the pledging bank's trust department, not in the City's name	<u>6,749</u>
Total Amount Subject to Custodial Credit Risk	<u>\$ 65,491</u>

The City had no cash equivalents at June 30, 2016.

Investments

As of June 30, 2016, the City had the following investments:

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

The City has adopted new accounting guidance, GASB Statement No. 72, *Fair Value Measurement and Application*. The new disclosure is presented below:

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements); followed by quoted prices in inactive markets or for similar assets or with observable inputs (Level 2 measurements); and the lowest priority to unobservable inputs (Level 3 measurements).

The City has the following recurring fair value measurements as of June 30, 2016:

	<u>June 30, 2016</u>	<u>Fair Value Measurements Using</u>	
		<u>Level 1</u>	<u>Level 2</u>
Investments by fair value level:			
U.S. Government Backed Securities	\$ 20,312	\$ 7,325	\$ 12,987
Corporate bonds	10,958		10,958
Mutual Funds	<u>132,139</u>	<u>112,992</u>	<u>19,147</u>
Total investments by fair value level	163,409	<u>\$ 120,317</u>	<u>\$ 43,092</u>
Investments not included above:			
Certificate of deposit	<u>10</u>		
Total Investments	<u>\$ 163,419</u>		

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. The City has no Level 3 investments.

Interest Rate Risk

The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk - Investments

As indicated above, State Statutes limit the investment options of cities and towns. The City has no investment policy that would further limit its investment choices.

Concentration of Credit Risk

The City has no policy limiting an investment in any one issuer that is in excess of 5% of the City's total investments.

Custodial Credit Risk

Custodial credit risk for an investment is the risk that, in the event of the failure of the counterparty (the institution that pledges collateral or repurchase agreement securities to the City or that sells investments to or buys them for the City), the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City does not have a policy for custodial credit risk. At June 30, 2015, the City had no uninsured and unregistered securities held by the counterparty, or by its trust department or agent that were not in the City's name.

(amounts expressed in thousands)

Debt Limit

The City's indebtedness does not exceed the legal debt limitations as required by the Connecticut General Statutes as reflected in the following schedule:

<u>Category</u>	<u>Debt Limit</u>	<u>Net Indebtedness</u>	<u>Balance</u>
General purpose	\$ 276,617	\$ 192,580	\$ 84,037
Schools	553,235	52,331	500,904
Sewers	461,029	44,566	416,463
Urban renewal	399,558		399,558
Pension deficit	368,823		368,823

The total overall statutory debt limitation for the City is equal to seven times annual receipts from taxation (\$860,587).

The indebtedness above includes \$55,739 of authorized bonds that were unissued as of June 30, 2016.

The Water Department Enterprise Fund is used to account for the operations of the City of New Britain Water Department in a manner similar to private business enterprises. Under Section 7-374B of the General Statutes of Connecticut, water bonds are treated as self-liquidating debt and are excluded in determining the net bonded debt.

Subway bonds represent debt related to constructing and maintaining underground conduits for electric light and telephone wires and cables. The bonds are general obligations of the City, which are financed by assessments levied against the utility companies which use the system. Under Section 7-374B of the General Statutes, the bonds are treated as self-liquidating and are excluded in determining the net bonded debt.

Overlapping Debt

As explained in Note 1, the Mattabassett District has been empowered by the State of Connecticut to issue bonds in its own name. The Mattabassett District has outstanding an \$83,184 Interim Funding Obligation (IFO) issued under the State of Connecticut's Clean Water Revolving Fund Program in connection with the design and construction of a Waste Water Pollution Facility Nitrogen Upgrade Project. As a member of the Mattabassett District, the City is assessed a pro-rate share of 41.61% of the District debt, which is reflected as overlapping debt. As of June 30, 2016, \$73,511 has been drawn upon and \$30,588 represents the City's share of the IFO as of that date.

Refunding Bonds Issue

On January 28, 2016, the City issued \$44,545 of general obligation refunding bonds with interest rates ranging from .86%-5.0%. The bonds were issued to partially refund \$47,550 of outstanding principal amounts of the 2006, 2007, 2008A, 2009, 2010A, 2012 and 2013 general obligation bonds. The net proceeds of \$51,169 (after an original issue premium of \$7,086 and payment of \$462 in underwriter's fees and other issuance costs) were deposited in an irrevocable trust fund under an escrow agreement between the Escrow Agent and the City. The Escrow Agent will use such proceeds to purchase a portfolio of the United States Treasury State and Local Government Securities. All investment income on and the maturing principal of the escrow securities held in the escrow deposit fund will be irrevocably deposited by the City for payment of the refunded bonds. The City refunded the above bonds to reduce total debt service payments over the next ten years by \$3,951 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$358.

As of June 30, 2016, the amount of defeased debt outstanding from the City's refundings was \$42,575 and the escrow balance was \$881. This amount is removed from the governmental activities column of the statement of net position.

**CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

(amounts expressed in thousands)

9. RISK MANAGEMENT

Insurance coverages are purchased by the City for the following exposures:

- Property damage
- Auto liability
- Boiler and machinery exposures

Property Damage

Purchased insurance covers physical loss or damage to City property (other than vehicles). Generally, the deductible is \$25; different deductibles apply to certain classes of property and types of loss. The City maintains a blanket building and contents policy on a 90% co-insurance coverage basis.

Auto Liability

The insured limit of coverage is \$3,000 with no deductible; uninsured/underinsured motorists' coverage is \$40, no deductible. The policy provides liability coverage for both vehicles and mobile equipment.

Boiler and Machinery Exposures

Insurance coverage includes direct damage limit per accident of \$40 the deductible is \$25. This policy provides coverage for damage resulting from sudden and accidental breakdown of boilers, refrigeration and air conditioning equipment, pressure vessels, piping and accessory equipment.

Self-Insurance Plans

The City is self-insured, or maintains large risk retentions, with regard to the following types of coverage:

- Medical Health Insurance
- General Liability
- Workers' compensation (including Policemen and Firemen Hypertension)
- Employee Fiduciary Bonds (except for the Tax Collector, Treasurer and selected Treasury/Finance personnel)

The City has opted to manage certain of its risks internally and set aside assets for claim settlement in its Internal Service Funds. The Internal Service Funds are used to account for the City's medical, workers' compensation and general accident, casualty and liability risks. During 1994, the City adopted Statement No. 10, as amended by Statement No. 17, of GASB.

The City's medical self-insurance program is administered by Blue Cross/Blue Shield. Under the medical plan, the City self-insures individual coverage up to a maximum of \$200 for major medical, and for hospitalization for the contract year July 1, 2015 to June 30, 2016. The City has obtained coverage that insures claims in excess of these amounts. When a claim is submitted, the administrator processes and pays the claims from funds accumulated by the City in an internal service fund. The internal service fund is funded annually by the City's General Fund and the Board of Education based upon information provided by the administrator using an actuarial method to determine such information. The charges by the internal service fund to the City's General Fund are to be adjusted over future contract years so that internal service fund revenues and expenses are approximately equal over such period of time. The City's medical claim liability of approximately \$861 is reported in the

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

internal service fund at June 30, 2016, and is based on the requirements of GASB Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

The City's self-insurance program for general accident, casualty and liability is administered internally. When a claim is submitted, the City processes and pays the claim from funds now accumulated by the City in an internal service fund. The General Liability Internal Service Fund was funded in 1994 to the extent that the City's financial resources would be required during the next 12 months. The charges by the General Liability Internal Service Fund to other funds will be adjusted over future years so that internal service revenues and expenses are approximately equal over such period of time. The City currently carries excess general liability insurance coverage, which reflects a self-insured retention of \$500. The City retains the first \$500 per occurrence; coverage is provided by the insurer for the next \$3,000 per occurrence/\$4,000 aggregate. The insurance coverage includes a stop loss feature, providing coverage after the City has paid \$1,300 cumulative accident year claims. Separate policies for special risks are carried by the City to complement the self-insured program; these include:

- Owners, landlords and tenants liability coverage for the Fafnir property and for foreclosed properties
- Liability coverage for the Terrific Toys program

The City's self-insurance program for workers' compensation is administered internally. When a claim is submitted, the City processes and pays the claim from funds now accumulated by the City in an internal service fund. The Workers' Compensation Internal Service Fund was funded in 1994 to the extent that the City's financial resources would be required during the next twelve months. The charges by the Workers' Compensation Internal Service Fund to other funds will be adjusted over future years so that internal service revenues and expenses are approximately equal over such period of time. The City's aggregate workers' compensation claim liability of approximately \$11.5 million has been recorded in the workers' compensation internal service fund. The City currently carries excess workers' compensation insurance coverage. The City retains the first \$1,000 per accident; limits are statutory.

Settled claims have not exceeded the commercial coverages in any of the previous three years and there has not been a significant reduction in coverage in the year July 1, 2015 and June 30, 2016.

The changes in the claim reserves for the fiscal years ended June 30, 2016 and 2015, are as follows:

	June 30, 2016			June 30, 2015		
	Medical	Workers' Compensation	General Accident Casualty and Liability	Medical	Workers' Compensation	General Accident Casualty and Liability
Beginning of year claim reserve	\$ 667	\$ 5,008	\$ 2,988	\$ 1,583	\$ 12,880	\$ 2,970
Current year incurred claims and changes in prior year estimate				18,743	10,578	2,069
Claim payments	194	6,444	(18)	(19,659)	(18,450)	(2,051)
End of Year Claim Reserve	\$ <u>861</u>	\$ <u>11,452</u>	\$ <u>2,970</u>	\$ <u>667</u>	\$ <u>5,008</u>	\$ <u>2,988</u>

(amounts expressed in thousands)

10. EMPLOYEE RETIREMENT SYSTEMS AND PENSION PLANS

A. Pension Trust Funds

The City is the administrator of a single-employer public employee retirement system (PERS). The City maintains two plans that establish and administer pension benefits for both its Police and Fire Department employees, respectively. Benefits and contributions under this retirement system are established by the City and may be amended only by the City Council. The PERS is considered to be part of the City's financial reporting entity and is included in the City's financial reports as pension trust funds. A separate stand-alone financial report for the PERS is not issued by the City.

Management of the plans rests with the PERS Board, which consists of five members: the Finance Director, Mayor, Majority and Minority Leaders and the President of the Board of Finance and Taxation.

Summary of Significant Accounting Policies

Basis of Accounting

Financial statements are prepared using the accrual basis of accounting for the two defined benefit pension plans. Employee and employer contributions are recognized as revenues in the period in which employee services are performed. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans.

Method Used to Value Investments

Investments are reported at fair value. Investment income is recognized as earned.

Plan Description and Benefits Provided

Under the plans, all City police employees hired on or before July 1, 2000 are eligible; those hired after this date shall be enrolled in the Connecticut Municipal Employees' Retirement Fund B. All Fire Department employees hired on or before July 1, 1995 are eligible; those hired after July 1, 1995 shall be enrolled in the Connecticut Municipal Employees' Retirement Fund B. Consequently, these are "closed plans." Police Department and Fire Department employees are 100% vested after ten years of service. If an employee leaves covered employment or dies before he or she is vested, accumulated employee contributions are refunded without interest. The retirement benefit is calculated at 50% (2-1/2% per year for the first 20 years) of the compensation being paid to an active member of the same grade as that at which the member retired, except that firemen may contribute at the level of a lieutenant's pay and retire at that grade and patrolmen may contribute at the level of a sergeant's pay and retire at that grade. An additional 1/2% of pay is added for each of the next five years of allowable service plus 1% for each year of allowable service over 25 years to a maximum of 80%.

As of the most recent actuarial valuation, PERS membership consisted of:

	<u>Police</u>	<u>Fire</u>
Retirees and beneficiaries currently receiving benefits	207	172
Terminated employees entitled to benefits but not yet receiving them	2	
Active plan members	<u>47</u>	<u>49</u>
Total	<u><u>256</u></u>	<u><u>221</u></u>

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

Funding Policy and Progress

The employees hired prior to July 1, 1990 shall receive full escalation of pension benefits and contribute 7% of their salaries. Employees hired on or after July 1, 1990 receive no escalation of pension benefits and contribute 5-1/2% of their salaries. The City is required to contribute the remaining amounts necessary to finance the coverage for its employees. For the fiscal year ended June 30, 2016, these required contributions were \$1,413 and \$1,459 for the fire and police plans, respectively. Benefits and contributions are established by the City and may be amended only by the City Council and Union negotiation.

Investments

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the PERS Board by a majority vote of its members. It is the policy of the PERS Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board's adopted asset allocation policy for both plans as of June 30, 2016:

<u>Asset Class</u>	<u>Target Allocation</u>
Core Fixed Income	35.00%
Short-Term Bonds	1.50%
Large Cap US Equities	30.00%
Small Cap US Equities	10.00%
Developed Foreign Equities	20.00%
Commodities	<u>3.50%</u>
Total	<u><u>100.00%</u></u>

Rate of Return

For the year ended June 30, 2016, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense for both Fire and Police, was -.11% and -1.8%, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

Net Pension Liability of the City

The components of the net pension liability of the City at June 30, 2016 were as follows:

	<u>Fire</u>	<u>Police</u>
Total pension liability	\$ 99,070	\$ 86,496
Plan fiduciary net position	<u>73,624</u>	<u>62,893</u>
Total Net Pension Liability	\$ <u>25,446</u>	\$ <u>23,603</u>
Plan fiduciary net position as a percentage of the total pension liability	74.32%	72.71%

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of July 1, 2014, using the following actuarial assumptions, applied to all periods included in the measurement:

	<u>Police</u>	<u>Fire</u>
Inflation	2.75%	2.75%
Salary increases	3.75%	3.50%
Investment rate of return	7.50%	7.50%

Mortality rates were based on the RP-2000 Healthy Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2013-June 30, 2014.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2016 (see the discussion of the pension plan's investment policy) are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Rate of Return</u>
Core Fixed Income	2.69%
Short-Term Bonds	1.81%
Large Cap U.S. Equities	5.11%
Small Cap U.S. Equities	6.26%
Developed Foreign Equities	6.04%
Commodities	3.27%

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

Discount Rate

The discount rate used to measure the total pension liability was 7.50% for both plans. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

2020		2,414

B. Municipal Employees' Retirement System

Plan Description

Substantially all City employees except for the certified employees of the Consolidated School District and the regular members of the Police and Fire Departments participate in the Municipal Employees' Retirement System (MERS). MERS is a cost-sharing multiple-employer public employee retirement system established by the State of Connecticut and administered by the State Retirement Commission to provide pension benefits to employees of participating municipalities. Chapters 7-425 to 7-451 of the State of Connecticut General Statutes, which can be amended by legislative action, establishes MERS benefits, member contribution rates and other plan provisions. MERS is considered to be part of the State of Connecticut's financial reporting entity and is included in the State's financial reports as a pension trust fund. Those reports can be obtained at www.ct.gov.

Benefit Provisions

The plan provides retirement, disability and death benefits and annual cost-of-living adjustments to plan members and their beneficiaries. Employees are eligible to retire at age 55 with 5 years of continuous service, or 15 years of active aggregate service or 25 years of aggregate service. In addition, compulsory retirement is at age 65 for police and fire members.

Normal Retirement

For members not covered by social security, retirement benefits are calculated as 2% of the average of the three highest paid years of service times the years of service. For members covered by social security, retirement benefits are calculated as 1½% of the average of the three highest paid years of service not in excess of the year's breakpoint plus 2% of average of the three highest paid years of service in excess of the year's breakpoint, times years of service. The year's breakpoint is defined as \$10,700 increased by 6.0% each year after 1982, rounded to the nearest multiple of \$100. Maximum benefit is 100% of average final compensation and the minimum benefit is \$1,000 annually.

Early Retirement

Members must have 5 years of continuous or 15 years of active aggregate service. Benefits are calculated as a service retirement allowance on the basis of the average of the three highest paid years of service to the date of termination. Benefits are deferred to normal retirement age, or an actuarially reduced allowance may begin at the time of separation.

**CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

(amounts expressed in thousands)

Disability Retirement - Service Connected

This applies to employees who are totally and permanently disabled and such disability has arisen out of and in the course of employment with the municipality. Disability due to heart and hypertension in the case of fire and police is presumed to have been suffered in the line of duty. Benefits are calculated as a service retirement allowance based on compensation and service to the date of the disability with a minimum benefit (including worker's compensation benefits) of 50% of compensation at the time of disability.

Disability Retirement - Non-Service Connected

This applies to employees who have 10 years of service and are totally and permanently disabled. Benefits are calculated as a service retirement allowance based on compensation and service to the date of the disability.

Death Benefit

This applies to employees who are eligible for service, disability or early retirement and married for at least 12 months preceding death. Benefits are calculated based on the average of the three highest paid years of service and creditable service at date of death, payable to the spouse. Benefit is equal to 50% of the average of the life annuity allowance and reduced 50% joint and survivor allowance.

Contributions

Member

Contributions for members not covered by social security are 5% of compensation; for members covered by social security, 2¼% of compensation up to the social security taxable wage base plus 5%, if any, in excess of such base.

Employer

Participating employers make annual contributions consisting of a normal cost contribution, a contribution for the amortization of the net unfunded accrued liability and a prior service amortization payment, which covers the liabilities of MERS not met by member contributions.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the City reports a liability of \$19,741 for its proportionate share of the net pension liability. The net pension liability was measured at June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation at that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participants, actuarially determined. At June 30, 2016, the City's proportion was 10.24%. The increase or decrease in proportion from June 30, 2015 was 1.54%.

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

For the year ended June 30, 2016, the City recognized pension expense of \$(3,193). At June 30, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

	Deferred Outflows of Resources
City contributions after the measurement date	\$ 6,949
City's employer change in proportional share	268
Net difference between projected and actual earnings on pension plan investments	<u>3,335</u>
Total	<u><u>\$ 10,552</u></u>

Amounts reported as deferred outflows of resources related to City contributions after the measurement date will be recognized as a reduction of the net pension liability in the subsequent year. Amounts reported as deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ending June 30	
2017	\$ 292
2018	292
2019	292
2020	2,727

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of June 30, 2014, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary increase	4.25-11.00%, including inflation
Investment rate of return	8.00%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Mortality Table for annuitants and non-annuitants (set forward one year for males and set back one year for females).

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2005 - June 30, 2010.

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Large Cap U.S. equities	16.0%	5.8%
Developed non-U.S. equities	14.0%	6.6%
Emerging markets (non-U.S.)	7.0%	8.3%
Core fixed income	8.0%	1.3%
Inflation linked bond fund	5.0%	1.0%
Emerging market bond	8.0%	3.7%
High yield bonds	14.0%	3.9%
Real estate	7.0%	5.1%
Private equity	10.0%	7.6%
Alternative investments	8.0%	4.1%
Liquidity fund	3.0%	.4%
Total	100.0%	

Discount Rate

The discount rate used to measure the total pension liability was 8.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at the actuarially determined contribution rates in the future years. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the City's proportionate share of the net pension liability, calculated using the discount rate of 8.00%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (7.00%) or 1 percentage point higher (9.00%) than the current rate:

	1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)
City's proportionate share of the net pension liability	\$ 52,888	\$ 19,741	\$ (12,541)

**CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

(amounts expressed in thousands)

Plan Fiduciary Net Position

For the fiscal year ended June 30, 2015, the fiduciary net position of the MERS plan was restated to change the method of accounting for contributions receivable from a present value method to a gross method. The result of the restatement was to decrease the net pension liability and increase the July 1, 2014 fiduciary net position of the MERS plan by \$139,565,000. The effect on the City of New Britain's financial statements was to decrease the net pension liability and increase the government activities' net position as shown in Note 14.

Payable to MERS

In addition, the Town has also recorded \$48 as a long-term payable to MERS at June 30, 2016. This amount represents prior service costs calculated when the Town entered the plan, as such, the Town has restated beginning net position. The effect of the restatement was to decrease beginning net position and increase accounts payable to MERS as shown in Note 14.

C. Teachers Retirement

Plan Description

Teachers, principals, superintendents or supervisors engaged in service of public schools are provided with pensions through the Connecticut State Teachers' Retirement System, a cost sharing multiple-employer defined benefit pension plan administered by the Teachers Retirement Board. Chapter 167a of the State Statutes grants authority to establish and amend the benefit terms to the Teachers Retirement Board. The Teachers Retirement Board issues a publicly available financial report that can be obtained at www.ct.gov.

Benefit Provisions

The plan provides retirement, disability and death benefits. Employees are eligible to retire at age 60 with 20 years of credited service in Connecticut, or 35 years of credited service including at least 25 years of service in Connecticut.

Normal Retirement

Retirement benefits for employees are calculated as 2% of the average annual salary times the years of credited service (maximum benefit is 75% of average annual salary during the 3 years of highest salary).

Early Retirement

Employees are eligible after 25 years of credited service including 20 years of Connecticut service, or age 55 with 20 years of credited service including 15 years of Connecticut service with reduced benefit amounts.

Disability Retirement

Employees are eligible for service-related disability benefits regardless of length of service. Five years of credited service is required for nonservice-related disability eligibility. Disability benefits are calculated as 2% of average annual salary times credited service to date of disability, but not less than 15% of average annual salary, nor more than 50% of average annual salary.

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

Contributions

Per Connecticut General Statutes Section 10-183z (which reflects Public Act 79-436 as amended), contribution requirements of active employees and the State of Connecticut are approved, amended and certified by the State Teachers Retirement Board and appropriated by the General Assembly.

Employer (School Districts)

School District employers are not required to make contributions to the plan.

The statutes require the State of Connecticut to contribute 100% of each school districts' required contributions, which are actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of the benefits earned by employees during the year, with any additional amount to finance any unfunded accrued liability.

Employees

Effective July 1, 1992, each teacher is required to contribute 6% of salary for the pension benefit.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the City reports no amounts for its proportionate share of the net pension liability, and related deferred outflows and inflows, due to the statutory requirement that the State pay 100% of the required contribution. The amount recognized by the City as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the City were as follows:

City's proportionate share of the net pension liability	\$	-
State's proportionate share of the net pension liability associated with the City		<u>191,636</u>
Total	\$	<u><u>191,636</u></u>

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. At June 30, 2016, the City has no proportionate share of the net pension liability.

For the year ended June 30, 2016, the City recognized pension expense and revenue of \$15,355 in Exhibit II for on-behalf amounts for the benefits provided by the State.

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of June 30, 2014, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Salary increase	3.75-7.00%, including inflation
Investment rate of return	8.50%, net of pension plan investment expense, including inflation

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

Mortality rates were based on the RP-2000 Combined Mortality Table projected 19 years using scale AA, with a two-year setback for males and females for the period after service retirement and for dependent beneficiaries.

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2005 - June 30, 2010.

Future cost-of-living increases for members who retire on or after September 1, 1992 are assumed to be an annual cost-of-living adjustment of 2%.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Large Cap U.S. equities	21.0%	7.3%
Developed non-U.S. equities	18.0%	7.5%
Emerging markets (non-U.S.)	9.0%	8.6%
Core fixed income	7.0%	1.7%
Inflation linked bond fund	3.0%	1.3%
Emerging market bond	5.0%	4.8%
High yield bonds	5.0%	3.7%
Real estate	7.0%	5.9%
Private equity	11.0%	10.9%
Alternative investments	8.0%	0.7%
Liquidity fund	6.0%	0.4%
Total	100.0%	

Discount Rate

The discount rate used to measure the total pension liability was 8.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that State contributions will be made at the actuarially determined contribution rates in the future years. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The City's proportionate share of the net pension liability is \$-0- and, therefore, the change in the discount rate would only impact the amount recorded by the State of Connecticut.

**CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

(amounts expressed in thousands)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued financial statements available at www.ct.gov.

Other Information

Additional information is included in the required supplementary information section of the financial statements. A schedule of contributions is not presented as the City has no obligation to contribute to the plan.

D. Single-Employer Defined Benefit Pension Plan

In addition to the above plans, the City is currently paying benefits to three groups of retirees by means of annual appropriations. This program covers those individuals whose pension payments commenced prior to November 1972 and retired elected officials with over 20 years of service. Since no active employees are included, their benefits are not advance funded but paid as they come due from General Fund appropriations, i.e., on a "pay-as-you-go" basis. The unfunded liability for this plan is decreasing rapidly since the average age is 82 years.

There are 6 retirees, 5 beneficiaries and no active employees covered by this plan.

Summary of Significant Accounting Policies and Plan Asset Matters

The annual required contribution (ARC) and the annual pension cost represent the actual benefits paid out during the year.

Funding Policy

Funds are budgeted in the General Fund to cover pension benefits paid each year. Annual contributions are equal to the annual benefit payments. Benefits and contributions were established by City Charter.

Annual Pension Cost and Net Pension Obligation

The City's annual pension cost, which is equal to the annual benefit payments, for the current year amounted to \$105. The "pay-as-you-go" plan does not have a net pension obligation as of June 30, 2016.

Trend Information

Amortization methods and periods, asset valuation methods and projected salary increases are not applicable.

E. Post Employment Benefits

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the City’s Other Post Employment Benefit Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Administrative costs of the plan are paid by the City.

Investments are reported at fair value. Investment income is recognized as earned.

Plan Description

The City, in accordance with various collective bargaining agreements, provides retiree medical benefits for the lifetime of the retired member and covered dependents. The plan covers City, Board of Education, Police and Fire employees as further defined in collective bargaining agreements and other written materials. Eligibility and premium sharing information is detailed in the various collective bargaining agreements. The City does not issue separate stand-alone financial statements for the plan.

At July 1, 2014, plan membership consisted of the following:

Retirees and beneficiaries currently receiving benefits	971
Active plan members	<u>1,386</u>
Total	<u><u>2,357</u></u>

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

Funding Policy

The City currently pays for post employment health care benefits on a pay-as-you-go basis. As of June 30, 2013, the City has established a trust fund to irrevocably segregate assets to fund the liability associated with the post employment benefits, which is reported as a trust fund in accordance with GASB guidelines. The contribution requirements of plan members and the City are also negotiated with the various unions representing the employees. Retired plan members and beneficiaries currently receiving benefits are required to contribute specified amounts monthly towards the cost of health insurance premiums as follows:

City Employees

Generally, retirees and their dependents are covered for a period of seven years from the date of retirement. In most cases retirees can continue coverage beyond the seven-year period at their own expense. Cost sharing is based on years of service at retirement as follows:

<u>Years of Service</u>	<u>City Pays</u>
20+	100%
15-19	80%
10-14	60%
5-9	40%

In some cases retirees have access to post retirement health coverage through the City, but at their own expense. In those instances, upon the retiree's death, spousal coverage is available, but at their own expense.

Board of Education

Teachers - Pre-65 is 100% retiree paid.

Administrator (Local 51) - Effective July 1, 2008 for pre-65 only, the Board will contribute up to 50% of the cost up to a maximum of \$7,500 per year for three additional years beyond the two year cost-share benefit previously provided. Retirees can continue coverage beyond the two-year period at their own expense. Spouses and dependents are covered and surviving spouses and dependents may continue coverage in accordance with COBRA.

NBSSA/AFSA - After eight years of continuous service, two of which in Local 818, retirees shall be offered coverage for the first two years from retirement at the same cost share in effect for active employees (2011-12, 14% Retiree/85% Board). The Board will also pay 50% of the cost up to a maximum \$7,500 per year for the cost of the retiree's benefits for three additional years (pre-65 only).

AFSCME (Local 1186) - Coverage is offered for the first five years from retirement. Cost sharing is the same as for active employees (2006/07, 12% retiree and 88% Board, prior to January 1, 1997, 13% retiree and 95% Board). Beyond the fifth year, retirees are offered COBRA.

**CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

(amounts expressed in thousands)

Police

If the date of hire is prior to July 1, 1993, retirees and their dependents are covered for a period of seven years from the date of retirement. Cost sharing is based on years of service at retirement as follows:

<u>Years of Service</u>	<u>City Pays</u>
20+	100%
15-19	80%
10-14	60%
5-9	40%

Retirees can continue coverage beyond the seven-year period at their own expense. If the date of hire is after July 1, 1993, the retiree has access to post retirement health coverage through the City at their own expense.

Fire

If the date of hire and retirement is prior to June 23, 2004, the retiree and their dependents are covered for a period of ten years from the date of retirement. Cost sharing is based on years of service at retirement as follows:

<u>Years of Service</u>	<u>City Pays</u>
20+	100%
15-19	80%
5-14	60%

Employees who retire after June 23, 2004 and their dependents are covered for a period of ten years from the date of retirement. Cost sharing is based on years of service at retirement and is the same as above. Retirees can continue coverage beyond the seven- or ten-year period at their own expense. If the date of hire is after June 23, 2004, retirees have access to post retirement health coverage through the City at their own expense.

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

Annual OPEB Cost and Net OPEB Obligations

The City of New Britain's annual other post employment benefit (OPEB) cost is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City's net OPEB obligation (asset):

Annual required contribution	\$ 6,052
Interest on OPEB obligation	93
Adjustment to annual required contribution	<u>(88)</u>
Annual OPEB cost	6,057
Contributions made	<u>5,892</u>
Change in net OPEB obligation	165
Net OPEB Obligation, July 1, 2015	<u>1,437</u>
Net OPEB Obligation, June 30, 2016	<u>\$ 1,602</u>

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for the fiscal years ended June 30, 2016, 2015 and 2014 are presented below.

<u>Fiscal Year End</u>	<u>Annual OPEB Cost (AOC)</u>	<u>Actual Contribution</u>	<u>Percentage of AOC Contributed</u>	<u>Net OPEB Obligation (Asset)</u>
6/30/2014	\$ 6,371	\$ 6,291	98.7%	\$ 994
6/30/2015	6,682	6,239	93.4%	1,437
6/30/2016	6,057	5,892	97.3%	1,602

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about the future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as accrual results are compared with past expectations and new estimates are made about the future. The following schedule of funding progress presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

(amounts expressed in thousands)

Schedule of Funding Progress

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Unfunded AAL (UAAL)	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll
7/1/2010	\$ 974	\$ 48,213	\$ 47,239	2.0%	N/A	N/A
7/1/2012	1,171	68,033	66,863	2.0	N/A	N/A
7/1/2014	3,223	70,370	67,147	4.6	N/A	N/A

Schedule of Employer Contributions

Fiscal Year Ended	Annual Required Contribution	Percentage Contributed
6/30/14	\$ 6,360	98.74%
6/30/15	6,671	93.52
6/30/16	6,052	97.36

Projections for benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit cost between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2014 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions include a 6.5% rate of return, which is the rate of the expected long-term investment returns of plan assets calculated based on the funding policy of the plan at the valuation date. The amortization period is 30 years decreasing. The valuation type is closed group. The ultimate inflation rate is 4.0%. The annual healthcare cost trend rate is 9% initially, reduced by decrements to an ultimate rate of 5% after four years.

11. CONTINGENT LIABILITIES

The City is a defendant in a number of lawsuits. It is the opinion of management that such pending litigation will not be finally determined so as to result in a judgment or judgments against the City that would materially affect its financial position.

CITY OF NEW BRITAIN, CONNECTICUT
NOTES TO FINANCIAL STATEMENTS

13. BULK LIEN SALES

During the fiscal year ended June 30, 2016, the City executed a bulk sale of property tax liens and collected proceeds of \$564. The City retains no interest in the assigned liens. The purchaser bears all risks relating to its ability to collect the amounts owed and, should it acquire title to the underlying real estate through foreclosure or otherwise, will bear all risks associated with the ownership and sale of the real property.

Notes to Schedule

Valuation date: June 30, 2014

Measurement date: June 30, 2015

Actuarially determined contribution rates are calculated as of June 30, each biennium for the fiscal years ending two and three years after the valuation date.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry Age
Amortization method	Level dollar, closed
Single equivalent amortization period	27 years
Asset valuation method	5 years smoothed market (20% write up)
Inflation	3.25%
Salary increases	4.25% - 11%, including inflation
Investment rate of return	8%, net of investment related expense
Changes in assumptions	In 2013, rates of mortality, withdrawal, retirement and assumed rates of salary increases were adjusted to more closely reflect actual and anticipated experience.

Combining and Individual Fund Statements and Schedules

General Fund

GENERAL FUND

The General Fund is the principal fund of the City and is used to account for all activities of the City not included in other specific funds. The General Fund accounts for the normal recurring activities of the City such as the police department, fire department, parks and recreation, public works and the Board of Education. These activities are funded primarily by property taxes levied on individuals and local businesses.

**Capital
Projects Fund**

CAPITAL PROJECTS FUND

The Capital Projects Fund is used to account for the financial resources for the acquisition or construction of major capital facilities, other than those financed by proprietary funds and trust funds.

Revenues to the Capital Projects Fund consist of the proceeds of long and short-term debt, grants, and transfers from operating funds and the Capital and Nonrecurring Expenditure Fund.

Appropriations are made on a project life basis by the City Council in the form of resolutions or bond ordinances.

The schedule on the following pages displays for each project:

1. The original appropriation as amended.
2. Expenditures for the current fiscal year.
3. Expenditures for all fiscal years.
4. Outstanding encumbrances.
5. The project balance at fiscal year end.

For management reporting purposes, projects are classified into functional areas.

If projects are completed with remaining funded balances, the unexpended balance is transferred to the Capital Reserve Account of the Capital and Nonrecurring Expenditure Fund. The reserve is then used as a source of funding for future projects.

Internal Service Funds

INTERNAL SERVICE FUNDS

Internal Services Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other government units, on a cost-reimbursement basis.

Special Reserve Fund

to account for revenues and expenditures related to the BOE's portion of the City's Medical Self-Insurance Plan

Health Insurance Fund

to account for revenues and expenditures related to the City's Medical Self-Insurance Plan.

Workers' Compensation Fund

to account for revenues and expenditures related to the City's Worker's Compensation Plan.

General Accident Casualty and Liability Fund

to account for revenues and expenditures related to the City's self-insurance program for general liability coverage.

Fiduciary Funds

TRUST FUNDS

Pension Trust Funds

to account for the City's single employer defined benefit pension plans that provide pension benefits for police and fire employees.

Other Post Employment Benefit Trust Fund

to account for the accumulation of resources for other post employment benefit payments to qualified employees for both the City and the consolidated school district.

AGENCY FUNDS

Agency Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations and other governments. Agency Funds are not included in the government-wide statements. The Agency Funds are as follows:

Student Activity Fund

to account for the collection and payment of expenses for education extra-curricular activities at the high school, middle school and grammar schools. Annually, the Board of Education transfers funds from its General Fund Budget.

Contractor's Bond Fund

to account for all bonds collected from contractors - these bonds will be returned to payee upon successful completion of related construction project.

Downtown District

to account for taxes collected for the upkeep of the downtown areas.

Statistical Section

Statistical Section Information

The objectives of statistical section information are to provide financial statement users with additional historical perspective, context and detail to assist in using the information in the financial statements, notes to financial statements and required supplementary information to understand and assess economic condition.

Statistical section information is presented in the following categories:

- *Financial trends information* is intended to assist users in understanding and assessing how financial position has changed over time.
- *Revenue capacity information* is intended to assist users in understanding and assessing the factors affecting the ability to generate *own-source revenues* (property taxes, charges for services, etc.).
- *Debt capacity information* is intended to assist users in understanding and assessing debt burden and the ability to issue additional debt.
- *Demographic and economic information* is intended 1) to assist users in understanding the socioeconomic environment and 2) to provide information that facilitates comparisons of financial statement information over time and among governments.
- *Operating information* is intended to provide contextual information about operations and resources to assist readers in using financial statement information to understand and assess economic condition.

The accompanying tables are presented in the above order. Refer to the Table of Contents for applicable page number locations.

Sources: Unless otherwise noted, the information in the tables is derived from the comprehensive annual financial reports for the relevant year.

Source: City of New Britain Office of Tax Assessor

Note:

- (1) The October 1, 2002 and 2007 Grand List were revaluation years
- (2) The 2011 fiscal is the 2009 Grand List, 2010 is 2008 and so on
- (3) Residential also includes land and use assessment (i.e. farm, forest, open space)
- (4) Commercial also includes public utility, exempt properties and apartment buildings
- (5) Less BAA (Board of Assessment Appeals) changes
- (6) Total Direct Tax Rate = mill rate
- (7) Total Taxable Assessed Value / .70 = Actual Taxable Value
- (8) Taxable Assessed Value as a Percentage of Actual Value = Assessments are 70% of Value

The City of New Britain has no overlapping property tax rates
