Tues., Nov. 23 . . . Full day of school – out at 3:15 p.m.

Wed., Nov. 24-Fri., Nov. 26 . . . NO SCHOOL for Thanksgiving break

Principal's Message

Dilworth Family,

We were so fortunate to be able to host a vaccination clinic last Friday, we just wanted to let you know that the Health Department gave over 200 vaccinations during the two hours they were here.

We hope that you are able to relax and find time this week to reflect on those things for which you are truly thankful. We are thankful to be able to associate and work with such great kids. It is fun to get to know them and their cute personalities. We are also thankful for the great support we get from our community.

Happy Thanksgiving from us all at Dilworth! We do appreciate all you do!

Kind regards,

Richard Squire, Principal

Felicia Wood, Assistant Principal

PTA NEWS

Please remember that having Dilworth set up as your Amazon Smile contribution is free and easy! You can set it up in the Amazon app or on the website.

LIBRARY NEWS - Dragons Are Readers!

Week of November 19th

I am grateful and so happy to be with all 480+ students at Dilworth each week!

I am thankful for parents who read with their children, who are interested in what their children are reading, and talk to their children about books.

I'm thankful to parents who drop by the library and leave a kind word and a smile.

I'm thankful to walk through the halls of Dilworth and see giggles and eyes light up as they wave, and say, "Hi, Mrs. Park."

I'm thankful to work with good people, talented teachers, and administrators, who truly care about our students and each other.

I'm grateful to sense the satisfaction of each student as they present their chosen books for check-out.

I am grateful to have books in our library that meet the needs of our students as they walk into the different realms of their imaginations opening the pages of their chosen books.

Happy Week of Gratitude!

Did you know? Reading Books Makes You Live Longer! A study at Yale University followed 3635 participants for 12 years and concluded that "Book readers had a 23-month survival advantage and experienced a 20% reduction in risk of mortality over the 12 years of follow-up compared to non-book readers."
