Wednesday 8<sup>th</sup> December 2021

Could you be an inspirational STEM Ambassador for Southam?

I am writing to you as the Science subject leader and in the hope that you might be able to support me in the development of STEM at Southam. (Science, Technology, Engineering and Maths)

At Southam we pride ourselves on our lively and curious Scientists. Our topic-based curriculum is thoroughly enjoyed by our pupils and in recent discussions with a range of year groups it was apparent that our lessons are memorable and exciting.

However, it was interesting to discover that our children found it more challenging to explain how their fun Science learning could be useful in the real world and what kind of careers these activities could lead to. I know that many of our families have parents and relatives who work in STEM careers, and I hope to tap into you all as a community.

I am looking for volunteers to contribute to a short programme of events to promote STEM careers and engage the children in thinking about their choices beyond Southam Primary. This programme would hopefully form a focus for STEM week in March next year.

Your employer might have a programme that we could engage with, you might feel confident enough to come and talk (or have an online meeting) with a class or year group, or you might be happy to chat to me about your background so that I can use you as an inspirational STEM ambassador.

I look forward to hearing from you.

Mrs Hindley  
Science Subject Leader
