About Central High School

The mission of Central High School, District of Westosha, a community of learners, is to ensure all students acquire the knowledge, skills and character to thrive as contributing members of a global society through a quality, caring staff; a challenging, relevant curriculum; and diverse opportunities to achieve personal success.

In Central High School's classrooms, you will find a challenging, college-preparatory curriculum, highly qualified and caring teachers, innovative teaching and leading technology. Central High School is fully wireless, and all students bring their own laptop or tablet to school. The school also offers opportunities to borrow a device.

Central's students develop and grow within a safe and effective learning environment. This is the product of a deep commitment to world-class, student-centered excellence by teachers, staff, parents, our community and District leadership; and the results of this dedication are clear.

The success goes beyond academics. Our students excel in each of the four A's: academics, activities, arts and athletics, while also developing a moral compass that will guide them after high school—in college, their career and life.

Community

Central High School serves students from Brighton, Bristol, Paris, Salem, and Wheatland. It is also home to over 195 open enrolled students who live outside Central's boundaries.
