

Greetings, Students, Parents, and Guardians:

Kingman Unified School District #20 is pleased to loan a district Chromebook to students who do not own a device, to assist with the continuation and success of their education while participating in the KOLA program.

In addition to the Chromebook, a power supply will be issued. It is KUSD's expectation that the same device and accompanying accessories will be returned at the completion of the 2021-2022 school year.

As with any privilege, KUSD's Chromebook checkout agreement comes with responsibility. Maintaining these devices is costly. However, we understand that accidents happen, along with natural wear and tear. Unfortunately, this does not account for repairs or service necessary to keep the device in working condition. In the event that damage occurs and is deemed negligent or avoidable, the student/parent will be held responsible for necessary replacement costs of the device. Students should return the laptop in the same condition in which it was received.

We are committed to continuing to provide support to our students and families. Therefore, if you have any questions or are in need of tech support or in the event that accidental damage does occur, please reach out to KUSD's IT Department @ 928-753-6287 or parenthelpdesk@kUSD.org. A member of the IT Department will be glad to assist in any way they can. If a loaner device needs to be checked out to your student, a time that works for you will be arranged to receive the loaner device until the original device can be repaired or replaced.

Respectfully,

Kingman Unified School District #20
