#### IMPORTANT:

Before you apply, it is important to understand that the EBB Program will end when the funds are expended or six months after the Department of Health and Human Services declares an end to the COVID-19 health emergency, whichever is sooner. Participating households will need to opt-in to continue receiving broadband services from their provider after the program ends. If a household chooses to continue receiving service after the end of the Emergency Broadband Benefit Program, they will be billed the broadband provider's general monthly rate.
