Maryland Local School System Application and Certification

January 15, 2021
Purpose

Under the federal Coronavirus Response and Relief Supplemental Appropriations Act of 2021, Public Law 116-260, enacted on December 27, 2020, the Department awards grants to State educational agencies (SEAs) for the purpose of providing local educational agencies (LEAs), including charter schools that are LEAs, with emergency relief funds to address the impact that Novel Coronavirus Disease 2019 (COVID-19) has had, and continues to have, on elementary and secondary schools across the nation. The Elementary and Secondary School Emergency Relief II Fund (ESSER II) has the same allowable uses as the CARES Act ESSER Funds, and adds activities to address learning loss, preparing schools for reopening, and testing, repairing, and upgrading projects to improve air quality in school buildings. The ESSER II funds do not have an equitable services requirement.

Maryland Local School System Application

Part I – Planned Use of ESSER II Funds

1. Please describe the Local School System’s plans to measure and address learning loss among students disproportionately affected by the coronavirus and school closures, including: low-income students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care.

Over the past year, CCPS has been working diligently to progress monitor the achievement of historically underserved student populations during the pandemic. Quarterly updates over the past year have been reported to the Board of Education that illustrate letter grade performance by quarter as well as proficiencies on local common assessments across the school system.

It is clear that our historically underserved students have been disproportionately affected by the pandemic and planning and implementation has begun to be responsive to the needs of our students. CCPS has been implementing consistent tutoring services throughout the 2020-2021 academic year virtually as well as face-to-face to provide the necessary augmentation to the general education and instruction. Staff as well as local partnerships have provided extended learning opportunities, generally after school hours, to identified students needing additional academic support or additional resources to meet the demands of virtual and distance learning. These efforts began in the fall semester as CCPS returned to a hybrid learning environment and will continue through the end of this academic year.

Beginning July 6 of 2021, CCPS will be availing a comprehensive summer recovery and compensatory service opportunity to identified students in general education and special education services. Aligned with HB 1372, all students who are invited to attend recovery and/or compensatory services will receive transportation to and from school, breakfast and lunch, general education instruction with the primary foci in ELA and Math in addition to an evidence based intervention or strategy to meet the individual and personalized needs of each student. Program evaluation will be completed with a Pre Assessment and a Post Assessment of the summer programming.

Extended Learning Opportunities (ELO) will continue into and through the 2021-2022 academic year with after school and weekend academic opportunities for students to receive additional academic support.
2. **Please provide a description of the impact of the coronavirus on the local school system. Please identify any barriers to safely reopening schools for in-person, face-to-face instruction.**

There are many variables when considering the “impact” on the Carroll County Public Schools System. Those that have stood out focus primarily on the access of our students to receive quality instruction in a distance learning environment, the capacity of our teaching force to deliver a quality service to all of our students, and cumulatively utilizing community resources and supporting families to make certain students are staying engaged during our time away from schools.

CCPS moved into the hybrid learning model in the fall of 2020, affording students the opportunity to return to school two days a week as a member of one of two cohorts. Physical barriers pertaining to physical distancing among students within the building, building the capacity of teachers and staff to deliver virtual and concurrent instruction to students in the building and those remaining virtual at home, and providing a healthy working environment for staff through appropriate protocols to be followed are the three areas that have stood out with our transition back to four days a week this academic year.

3. **Please provide the Local School System’s planned use of ESSER II funds, including the timeline for implementing activities funded through this grant. This response should support the detailed budget narrative and C125.**

CCPS has a robust Learning Recovery Plan for the 2021-2022 school year that includes summer, fall and spring learning. Teacher wages vary from $36.09/hr to $60/hr. Instructional Assistant wages vary from $11.74/hr to $30/hr.

CCPS is also creating four COVID Regional Testing sites. COVID tests are being provided. CCPS will provide for nurses and other supplies for the sites.

CCPS intends to purchase computer devices for each middle school student and each elementary school student. The purpose of this investment, very much like the standard of purchasing textbooks, is to provide our students with their own device to access content, resources and assessments. CCPS recently invested in the purchase of a Learning Management System (LMS) where all of our curriculum and its content resides. Students will need a device at school to access the LMS and therefore be in a position to access individual course content, materials, and lessons. The devices will also be required for the planned Learning Recovery outside of the regular school day. We will house all of our instructional resources within the LMS so it will be essential for each student to have their own device during the instructional day. This has the added bonus of providing devices if students attend school virtually. Devices were purchased for all high school students during the 2020 – 2021 school year for this purpose. These funds would initially address the need at the middle school level and then address the needs at the elementary school level starting with third through fifth grade. At this time, the cost for devices is quoted at $510/device.
