Children are placed into a class based on the needs of the children, the observations of their Teachers and Instructors, and the balance of students, learning styles, and social skills in the classes. A parent's perspective on their child is valuable, and we welcome you to submit this form to the office when you submit your re-enrollment materials. This information will be considered as part of the class placement process, however, we do not accept specific teacher requests. MSD is very lucky to have an incredible staff of dedicated lead teachers at each level, all of whom hold their Montessori teaching credential, and have a deep respect for each child.
