Scope & Content: The Carol Dodge Collection came to Special Collections from the Menominee Tribal Library historical collection, where it was housed for many years. Carol Dodge was a member of the public library board. The collection includes numerous materials covering the Termination years, providing a unique view not only of the effects of Termination on the Menominee people, but also of the efforts to restore the Menominee Tribe. The bulk of the collection is made up of reports, analyses, and collected data related to the circumstances of the Tribe after Termination. These materials represent an intellectual response to Termination, as the materials taken together provide data that serve to illustrate (presumably to governmental agencies and federal lawmakers) the deleterious effects of Termination on the Menominee people. In addition, the collection covers issues related to education in Menominee County and on the Menominee Reservation, and also to the 1975 takeover of the Alexian Brothers Novitiate by the Menominee Warriors Society.

The Carol Dodge Collection includes reports, data, correspondence, newspaper clippings, plans, and memoranda.

Organization: Materials are in original order.

Language(s): English.
