

Drew Charter School COVID-19 Weekly Case Report (Week of December 3rd)

Includes all cases reported to Drew during this 7-day timeframe

When Drew Charter School nurses are notified of a confirmed-positive COVID-19 case, they submit a form to the Atlanta Public Schools (APS) Health Services department. APS shares these case reports with the Georgia Department of Public Health each Friday, and the reports are also used for monitoring and tracking of cases and outbreaks within Drew and the district. When a positive case is reported amongst Drew students or staff or in an extra-curricular environment, COVID-19 protocols go into effect.

The summary below includes self-reported cases, presumptive positive cases and associated exposures reported in the last week among students and staff screened through on-campus drive-through testing or at Drew's Elementary Academy or Junior/Senior Academy campus during the school week.

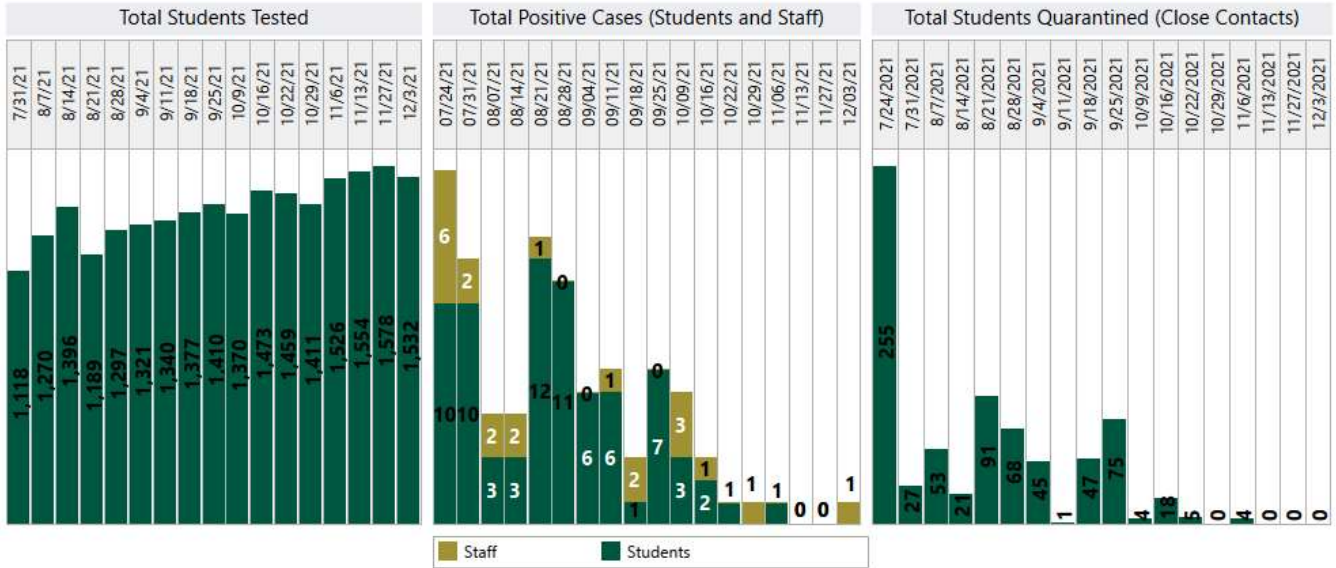

School Campus	Student Cases	Staff Cases	School-based Close Contacts*	Total Students Tested*
Drew Elementary Academy	0	1	4	827
Drew Junior/Senior Academy	0	0	1	705
Total	0	1	5	1,532

**Includes students who were identified during contact tracing as having close contact with a student or staff member who has tested positive for COVID-19*

Note: A case is defined as an individual with a laboratory-confirmed COVID-19 positive from either antigen (rapid) or PCR (nasal swab) tests; external positive cases are self-reported. Exposures are the close contacts of cases from school, work, and extracurricular settings. Exposures are aggregated from individual case reports and may not represent unique exposures.

Longitudinal Weekly Reporting (7/24 – 12/3)

Total Students Tested, Total Positive Cases, and Total Students Quarantined*

*Week of Fall Break (10/4-10/9) and Thanksgiving week (11/22-11/26) excluded
