## **Introduction**

The Dodge County School System, recognizing the need for well supervised and varied educational enrichment programs for students, has endorsed the concept of the 21<sup>st</sup> Century after school program. It is the desire of the 21<sup>st</sup> Century Community Learning Centers staff to provide an after-school program dedicated to excellence.

## **Mission**

Parents of all students, including special education and ESOL students will be informed about our program during Open House when they visit their child’s classroom. Interested parents will be asked to complete a short questionnaire concerning the after school program. Site Coordinators will review the list of students previously enrolled in the after school program to determine their eligibility. Classroom teachers will recommend students from their classes who may benefit from participation in the program. These three lists will be examined to determine students at-risk and in need of the services provided. Once selections are made, registration information is sent home to parents of qualifying students. At this time, Dodge County does not have any private schools. If we should get some in our district, we will recruit those students as well.

### **Transportation Plan**

Bus transportation home will be provided Monday through Friday by the Dodge County Board of Education and the 21<sup>st</sup> Century after school program. The school system maintains liability insurance at all times while buses are in use by the after school and summer school programs. The school system also ensures all bus drivers are trained in safety, student discipline, and emergency procedures prior to driving for the after school program. Students are dismissed to board the bus to go home at 5:30 p.m. daily during the after school program and at 12:00 p.m. daily during the summer program and are checked off by a staff member as they board the bus.

Bus drivers maintain radio communication with central office staff as needed. All drivers complete required school system transportation training as required by school system policies. All transportation personnel having contact with students must complete an annual national background check prior to interacting with students. Bus drivers do not allow students to de-board to an empty home. A staff member is on call each day to return to the site in case a student is brought back to the site to wait on a parent/authorized adult to arrive.

### **Attendance Policy**

- Students must attend regularly to receive the full benefits of the After-School Program.
- Students with chronic unexcused absences may be dismissed from the program.
- Students will not be allowed to ride the 3:00 bus home unless the school has been notified by a note from the parents or a phone call from the parents or guardians that the student has permission to be dismissed at 3:00. This is to ensure that parents are aware that the child will be arriving home early.

### **Check in/Check Out Procedures**

- ◆ Parents are required to complete the names and phone numbers of at least three adults that are authorized to pick-up their child/children from the after school/summer school program.
- ◆ If the parents have a specific person that is NOT to pick up their child, they must alert the after school administration and the required legal documentation must be attached.
- ◆ When authorized adults pick-up a student early, the adult must sign the student out in the office.
- ◆ When there is a change in the method of transportation for the student, the school must be notified by a note from the parent or a phone call to the school.
- ◆ When the students are dismissed each afternoon, they will identify to the after school staff the name of the person picking them up.
- ◆ A list of the students riding the bus home each afternoon will be given to the bus driver as the students are entering the buses.

### **Discipline Rules and Regulations**

## **Internet Acceptable Usage Policy**

It is the belief of the Dodge County School System that the integration of technology into daily academic activities is integral to the success of the school's instructional programs. It is, therefore, important that the integrity of the equipment, software, and data be maintained for maximum use by every student. In this regard, the Dodge County School System requires that all staff and students who use technology in any form sign a behavioral contract, acknowledging these guidelines as necessary in order for the school to maintain productive classrooms and equipment.

Staff and student use of the computers, printers, peripherals, and other electronic devices are for educational use only. Each student is assigned a lesson with specific objectives. The teacher will give instructions as to what and how the software is to be used. The violation of the provisions of this policy may result in the cancellation of privileges for computer use and in the some cases, disciplinary action.

Before use, all staff and students will be briefed on the aspects of security and ethics involved in using technology.

The student and parent/guardian agree to the following conditions:

- Students will not attempt to make any changes in the configuration of the computer system or software.

Unfortunately, some material may still be accessible via the Internet and may contain items that are illegal, derogatory, or potentially offensive to some people. Access to the Internet is given as a privilege to students who agree to act in a considerate and responsible manner. We require that students and parents or guardians read, accept, and sign the following rules for acceptable on-line behavior.

1. Students are responsible for good behavior on the Internet just as they are in school. General school rules for behavior and communications apply.

### **Professional Development Plan**

In the fall of 2021, 21st CCLC after school program staff will complete a needs assessment survey. Subsequently, we will review: the needs assessment results; 21st CCLC program goals and objectives; correlation between goals and objectives and program activities; and the emergency preparedness plan unique to the 21st CCLC after school program.

During September - December 2021, we will conduct staff meetings to review the goals and objectives and correlation between the goals and objectives and program activities. We will subsequently make any necessary adjustments to activities. We will also provide professional development opportunities (as identified through the staff needs assessment survey) that supplement the ones already offered by the Dodge County Board of Education for our regular school day staff.

During January - March 2022, we will conduct staff meetings to make any necessary adjustments to ensure compliance with the grant and provide any necessary training. Again, the professional development opportunities that we will provide will be designed to supplement (not duplicate) the ones already offered by the Dodge County Board of Education for our regular school day staff.

In May 2022, 21st CCLC summer program staff will complete a needs assessment survey. Subsequently, we will review: the needs assessment results; 21st CCLC program goals and objectives; correlation between goals and objectives and program activities; and the emergency preparedness plan unique to the 21st CCLC summer program.

### **Communication Plan**

The ongoing communication plan will begin in August 2021. An article regarding the 21<sup>st</sup> Century After School Program will be put on the school/district website.

The article will include the notice that anyone interested in obtaining additional information about the after school or summer school programs, should contact the schools directly or visit the school system's web site.

In addition, information dissemination activities will share and highlight evaluation information (from the most recent quarterly evaluation report) to key stakeholders through the monthly 21st CCLC management team, quarterly 21st CCLC advisory council and bi-monthly Dodge Connection Collaborative meetings; school system's website and newsletters; Dodge Connection Collaborative's website and newsletter; newspaper; available social media opportunities; radio and TV coverage; the Dodge Connection Collaborative speaker's bureau; brochures, pamphlets and other educational materials; speaking engagements at local

community and civic organizations; and presentations during school assemblies and PTO meetings. All of these materials will be available in English and Spanish and all materials will be written for a sixth grade reading level or below.

#### **A. Instructional Communication - School Day Teacher and 21<sup>st</sup> Century Staff**

Most 21<sup>st</sup> Century employees are school district employees and are assigned to the same grade level afterschool that they teach during the day. This enables 21<sup>st</sup> Century teachers to meet with regular day teachers during their common planning and weekly collaborative meeting times. During these meetings valuable feedback and ideas for improvement are gathered. Student agendas, emails, instant messages, fax machines, and cellular telephones will also be utilized for communication between school day instructional staff and 21<sup>st</sup> Century staff. Each Site Coordinator and after school program teacher will have email addresses, phone numbers and instant messenger information for each regular school day teacher.

#### **B. Communication- Director, Coordinator, School Principal, and Administrators**

The principals and regular school day teachers will have the email addresses phone numbers and instant messenger information for each Site Coordinator, the Project Director, and 21<sup>st</sup> Century Teachers. In addition, the Site Coordinators will attend as many school faculty and school leadership meetings as possible. The Project Director and School Principals will meet with other administrators to discuss the 21<sup>st</sup> Century Program on a monthly basis.

#### **C. Communication – Parents/Guardians**

Beginning in August 2021, parents and students will be contacted through various media such as: letters sent home to eligible students in grades K – 5; parent visitation at the beginning of the school year; email messages; school website information posting; and notices in student handbooks. All parents will receive communication via telephone calls, student agendas, and letters sent home regarding pertinent initiative-related events and student progress. We will also utilize the Remind101 program to send text messages to parents to remind them of special events or to alert them of early dismissal due to weather or other emergency situations.

A completed application will include a parent signature which (1) gives the student permission to participate in the program; (2) documents parent commitment to ensuring regular student attendance; (3) documents parent commitment to attending family activities; (4) gives the Initiative authorization to obtain and track student test scores, grades, attendance, and discipline records; (5) indicates whether or not the parent would like to volunteer during the program; and (6) specifies the child's daily mode of transportation. Once the initial return deadline has passed, classroom teachers will identify other students in need of academic support and offer those students the opportunity to fill any remaining empty slots.

The regular school day teachers will complete a written progress report for each participating student at the end of each semester. The 21<sup>st</sup> Century staff will also complete a quarterly progress report on each student. We will also offer quarterly Parent-Teacher conferences regarding all students enrolled in our after school program.

#### **D. Communication to Parents/Guardians with Limited English Proficiency**

All information regarding our program will be available (verbal and written) in English and other languages, when necessary. All written communication will be prepared for a sixth grade reading level or below. Translation services will be provided for any parent or student whose native language is not English as needed. The translator will explain the Initiative's objectives and emphasize the necessary parenting commitment and potential benefits of regular student attendance. They will also verbally discuss hours and dates of operation, location of activities, and will distribute and review an easy-to read flyer communicating the same information.

#### **Conflict of Interest**

The employees and consultant of the District have the responsibility of administering the affairs of the District honestly and prudently, and of exercising their best care, skill, and judgment for the sole benefit of the District. Those persons shall exercise the utmost good faith in all transactions involved in their duties, and they shall not use their positions with the school system or knowledge gained therefrom for their personal benefit. The interests of the organization must be the first priority in all decisions and actions.

Conflicts of interest may arise in the relations of directors, officers, and management employees with any of the following third parties:

1. Persons and firms supplying goods and services.
2. Persons and firms from whom the District leases property and equipment.
4. Competing or affinity organizations.
5. Donors and others supporters.
6. Agencies, organizations and associations which affect the operations of the District.
7. Family members, friends, and other employees.

A conflicting interest may be defined as an interest, direct or indirect, with any persons or firms mentioned above. Such an interest might arise through:

1. Owning stock or holding debt or other proprietary interests in any third party dealing with the District.
2. Holding office, serving on the board, participating in management, or being otherwise employed (or formerly employed) with any third party dealing with the District.
3. Receiving remuneration for services with respect to individual transactions Involving the District.
4. Using time, personnel, equipment, supplies, or good will for other than District/Program-approved activities, programs, and purposes.
5. Receiving personal gifts or loans from third parties dealing or competing with the District. Receipt of any gift is disapproved except gifts of a value less than \$25, which could not be refused without discourtesy. No personal gift of money should ever be accepted.

The areas of conflicting interest listed above, and the relations in those areas which may give rise to conflict, as listed above, are not exhaustive. Conflicts might arise in other areas or

through other relations. It is assumed that the directors, officers, and management employees will recognize such areas and relation by analogy. The fact that one of the interests described above does not necessarily mean that a conflict exists, or that the conflict, if it exists, is material enough to be of practical importance, or if material, that upon full disclosure of all relevant facts and circumstances it is necessarily adverse to the interests of the District.

However, any of the interests described above shall be disclosed before any transaction is consummated. It shall be the continuing responsibility of the board, officers, and management employees to scrutinize their transactions and outside business interests and relationships for potential conflicts and to immediately make such disclosures.

Transactions with parties with whom a conflicting interest exists may be undertaken only if all of the following are observed:

1. The conflicting interest is fully disclosed;
  2. The person with the conflict of interest is excluded from the discussion and approval of such transaction;
  3. A competitive bid or comparable valuation exists; and
  4. The District has determined that the transaction is in the best interest of the organization.
- Disclosure in the organization should be made to the Superintendent or Federal Programs Director.

The Superintendent and/or School Board shall determine whether a conflict exists and in the case of an existing conflict, whether the contemplated transaction may be authorized as just, fair, and reasonable to District. The decision of the Superintendent and/or School Board on these matters will rest in their sole discretion, and their concern must be the welfare of the District and the advancement of its purpose.

### **Evaluation**

The site coordinator and or project director will conduct a minimum of two walk throughs/classroom observations in every classroom during the course of the program. In addition, each teacher will receive a formal mid-year evaluation and a formal end-of-year evaluation. The staff will receive written feedback on the classroom observations and the formal evaluations.
