

Dodge County Elementary Schools 21st Century Community Learning Center Initiative 2021 Summer Program Evaluation Report

Brief Description of the Initiative

In July 2019, the Dodge County Board of Education and our joint applicant, Dodge Connection: Communities in Schools of Dodge County, Inc., were notified that we received funding to support the Dodge Elementary School 21st CCLC Initiative. The target population is at-risk students in grades K - 5 and their family members. The summer program provides services for 20 hours per week, Monday – Thursday, for five weeks (total of 20 days) per year during the summer. The students are from two Title I schools, North Dodge Elementary School and South Dodge County Elementary School.

Our programming includes academic instruction and enrichment activities (including STEM related activities); sports, recreation and fitness activities; arts and music enrichment activities; and parent involvement activities. All activities are aligned with the regular school day curriculum, individualized and are designed to ensure improvement in core academic content areas. It is our expectation that participants will benefit from the Initiative by having improved: academic performance; regular school attendance; homework completion; class participation; behavior; and family involvement.

Student Attendance and Enrollment

During the 2021 Summer Program, the Initiative had an enrollment of 133 at-risk students. These students were served at one of two sites: North Dodge Elementary School and South Dodge Elementary School.
