Purchase Order/Small Contract Language

Storm Water Protection

Following is recommended language that can be used for Purchase Orders. It is recommended that this language be incorporated into the permanent Terms and Conditions of your PO's and any other contracts of any size and for any service so that no matter the service, the vendors are aware that their behavior matters. Plus, if they are doing something that is not according to best practices, their "contract" contains language to allow you to enforce the rules.

Vendor shall comply with the lawful requirements of the District, the State of California, and all applicable municipalities and local agencies regarding discharges to separate storm drain systems or other watercourses under their jurisdiction, including applicable requirements in municipal storm water management programs.

If you have any questions, please contact us at (858) 292-3833.
