INTRODUCTION

Course Title:

Curriculum Area and Grade: 2

Course Purpose:

Music is a vital part of each student's daily life. Second grade general music is offered to students of all learning modalities and is designed to offer a myriad of opportunities for active participation and success. Students are regularly engaged in singing, playing instruments, moving to music, reading, notating, and creating music. Carefully selected materials provide a framework whereby students learn to understand and appreciate their own historical and cultural heritage as well as those of other cultures. Music adds quality to life as it promotes mental development and provides an outlet for emotional expression. Music provides a powerful means of engaging students in learning and improving their achievement. Fundamental in a student's overall social, emotional, and cognitive development, music enhances reasoning, inspires creativity, and encourages critical thinking, self-discipline, problem-solving, decision-making, cooperation, and imagination. Music enables students to learn about themselves, other people, and humanity in general.

Major Learning Goals and Understandings:

Student Learning Expectation(s):

- 1) Students will use singing, movement, and instruments to explore musical ideas.
- 2) Students explore and experience musical concepts such as tempo, timbre, dynamics, articulation, tonality, and meter.
- 3) Students will explore the relationships between music and the other arts, other disciplines, and daily life.
- 4) Students will read and notate music.
- 5) Students will develop Social and Emotional Learning (SEL) through the lense of music.
- 6) Students will develop an understanding of Diversity, Equity and Inclusion (DEI) through the lense of music.
