Student Educational Development

The focus of the Bethany Public School District (District) is on the learner, the student. Every student's educational development, guided by the District's goals and objectives, is the central concern of the Bethany Board of Education (Board) policies and administrative regulations.

Children vary widely in capacities, interests, social and economic background. Therefore, no two can be treated exactly alike if the fullest development of each is to be achieved.

The Board will attempt to erase any limitations of facilities and means that stand in the way of the school's availability to all who wish to learn.

Discrimination of students attending the school with respect to race, religion, color, national origin, ancestry, alienage, sex, sexual orientation, age, disability, pregnancy, gender identity, or expression is prohibited.
