

Learn about How an All-Electric Net Zero Future is possible!

As featured in CNN, The Geos Neighborhood combines traditional village living with the most advanced design and building practices. Geos will utilize the sun and the earth to produce as much energy as it consumes, with a total cost that's equal to or less than ordinary built-to-code communities. The monthly utility bill they pay is JUST \$6!

Date & Time: December 19, 2021 @ 10 AM EST

Zoom ID: 88088473751

Passcode: 1212

This session is mainly for kids as they are our future!
