

DATE: December 17, 2021

DISTRICT NAME: Wayne County RESA (BEN 130926)

SUBJECT: Addendum to Universal Service Fund Request for Proposal (RFP)
Wayne RESA RFP # 21-017-651
(FY22: 2022-2023)

ASSOCIATED FORM 470: 220005529

Questions and Answers

1. We would like to request the physical addresses of the locations where the switches are to be installed. In particular, what are the locations for the “Project Wide” part of the RFP?

Answer: The addresses are to be determined. The selection of hardware is dependent upon the bid responses and bidder selection for the companion RFP requesting lit, dark, and self-provisioned fiber solutions.

2. Does SNTC-8X5XNBD need to be included on the Cisco Catalyst 9200 and 9300 switches?

Answer: Yes, the Wayne RESA will decide on what support services they desire after the bid opening.

3. Can a proposed network diagram be provided detailing the desired end state network architecture?

Answer: No, this is currently not available and contingent of the bid responses from the WAN RFP.

4. Please clarify the intended use case of the following transceiver: SFP-10G-ZX-S. Is it intended to be used for long-distance switch connectivity?

Answer: It will be used for any selected SPF or dark fiber bid response where the extended distance may be required.

5. How many physical buildings will these switches be deployed at?

Answer: That will be determined once the WAN RFP is bids are evaluated.
