To whom it may concern,

**Re. Dogwood Charter School**

I am writing to express my support for the Dogwood Charter School. I am a fellow educator and coach using the Charlotte Mason philosophy of education and I believe that Dogwood Charter School will be an asset to the local community. Dogwood Charter School will provide an educational choice to families, one with rigorous academics and core values of safety, community, diversity, fun, and personal growth.

Over my many years of practicing the Charlotte Mason method of education and coaching others within this educational pedagogy I have seen children and families thrive and go on to prepare young people for success in college and career, as well as creating contributing, connected citizens.

I support the approval of Dogwood Charter School to serve students. I value the mission, philosophy and approach of Dogwood Charter School and I would be pleased to see a school of choice in the community.

Sincerely,

Leah Boden

The Chartiers Valley School Board  
Chartiers Valley School District  
2030 Swallow Hill Road  
Pittsburgh, PA 15220

Dear Esteemed Members of the Chartiers Valley School Board,

As an individual who has worked professionally in the government, corporate, and non-profit sectors, prior to becoming an educator, I have a unique perspective on the role schools can play in cultivating citizens and building capacity in communities. It is my goal to see students who actively learn, achieve career credentials, secure sustainable employment, and become productive, contributing members of our society. However, not every individual learns in the same way.

I had the good fortune of working with Beth Opat, President of the Board of Directors for Dogwood Charter School, and can attest to her great skills and experience as an educator. She is a highly effective, caring teacher of students with special need, and an informed motivated advocate for children and families who is well aware of the deficit of diverse, innovative education options in the Pittsburgh area.

The Dogwood Charter School, an independent, non-profit, open enrollment, public school, will provide students in Kindergarten through Eighth Grade with an educational alternative focused on developing the student in an academically challenging learning environment which is nontraditional, inclusive, and utilizes the well-researched Charlotte Mason method of education. It is the Dogwood Charter School's mission to improve students' quality of life through education and prepare them to reach their fullest potential through non-traditional, academic exploration. Students will be encouraged to "Think Differently" and use their individual talents and gifts to experience learning as it is connected to the real world.

Over my eighteen-year career as an educator in the state of Pennsylvania, I have seen a gap in students being able to achieve in the early grades (K-6) and then fall woefully behind as they enter middle and high school. Students are being left by the wayside and not prepared for college and/or career. This is for a variety of reasons, including different learning styles and lack of access to options. It is Dogwood's goal to reduce or eliminate this gap and provide students with opportunities many elite school students have but most cannot afford.

Every student, regardless of zip code, deserves a high-quality education and the opportunity to reach their full potential, and our region's economic prosperity depends on its schools preparing our students for the needs of the ever-changing workplace. Working together, we can change education so our students can be future-ready!

Respectfully,

Maureen Anderson, Ed.D.

To Whom it May Concern,

I am writing to express my support for Dogwood Charter School. Their mission to offer students a unique, tuition- free public education fostering the love of learning and curiosity in an intentional environment based on the belief that children are, foremost, persons closely aligns with the mission of Brookline Teen Outreach.

As an afterschool non-profit located in and serving the South Hills neighborhoods of Pittsburgh and focused on holistic learning and social emotional growth, we value educational choice. Dogwood Charter School is being formed by local families who wanted more choices in education for their children. We believe that it is essential to have more educational opportunities that have a focus on the whole child available to the communities where we live and that we love.

We also appreciate that Dogwood Charter School will provide students with a relational education: a philosophy of teaching that focuses on the relationships between the student and the ideas presented to them. It respects children as persons, fosters critical thinking, curiosity, relationships, and excellent communication skills, and results in inspiring self-education.

I am confident that Dogwood Charter School is a good match for the educational needs in Pittsburgh based on our own work in the afterschool space and that it will work well to provide an exceptional educational choice to students in our area. I support the approval of Dogwood Charter School to serve students in my district and would be pleased to see this school of choice in the community.

Sincerely,

INTEGRATE THINKING

To Whom It May Concern:

I am writing this letter to show my support for Dogwood Charter School and the foundations in which they are to build this school. A free public school that embraces teaching children is a way that promotes a love of learning as well as mindfulness is invaluable.

Dogwood Charter School will promote mindfulness with the Charlotte Mason teaching style. Children are our future and allowing them to feed their curious minds is the best way to build a strong foundation for learning. Creating relationships with books, talking with others help promote creativity and spark a love for learning as opposed to daily worksheets. Building lifelong learners who will welcome knowledge with open arms is very important.

Giving families the opportunity to choose a different teaching method that may fit their child better than the traditional methods is how we start to build a strong community. Traditional methods are a struggle for some children. Choice is everything, why not give children the choice to love learning.

Thank You,

*Tina Olszewski*

Dear Sir or Madam,

As a local business owner, I am writing this letter of support of the Dogwood Charter School.

Children and parents in our area are in need of more choices in education. As a free option for the children of Brookline and beyond, a Charlotte Mason philosophized school would be a great addition of variety to the current schooling options.

To form a strong community, a strong world, education is paramount. Our current educational institutions are faulty and failing our children. As Charlotte Mason said "education is an atmosphere, a discipline, a life" and we need options that embody that idea. True encouragement of our children to learn to learn and be life long self educators. Sculpting curious minds to work through their issues internally, interpersonally, internationally, and intercommunally. Building a better world of understanding and education.

Sincerely,

Tina Better, owner

I'm writing to support Dogwood Charter School, a proposed charter school in the South Hills of Pittsburgh. As a parent of three children, I understand first hand the positives and negatives of education. The Charlotte Mason model brings a fresh approach based on my experiences and the diverse needs of my children.

Dogwood Charter Schools takes a student-centered, whole-child approach to learning. It is an innovative model based on the ideas of Charlotte Mason, a British educator and author. Basically she believed that the use of play, object learning, nature observation, and use of the five senses were critical for a holistic education. A key aspect of the Charlotte Mason approach, *“we believe that childrens' minds are capable of digesting real knowledge, so we provide a rich, generous curriculum that exposes children to many interesting, living ideas and concepts.”* ([www.amblesideonline.org/CM/20Principles.html](http://www.amblesideonline.org/CM/20Principles.html))

Nationally, there are dozens of Charlotte Mason schools. I support bringing the first one to Pittsburgh, Dogwood Charter School.

Sincerely yours,

# Dogwood Charter School

## Letter of Intent

I, Mary Wall, would like to express my support for Dogwood Charter School and would like to state my intention in the way(s):

- I intend to enroll my child(ren) at Dogwood Charter School for the 2021-22 school year. I am aware that this letter only serves as a demonstration of my interest. It does not legally guarantee my child's enrollment, nor does it legally bind me to enroll my children. I understand that if I am not a Founding Member, my children will be included in the school lottery to determine enrollment.
- I am interested in supporting Dogwood Charter School financially.
- I am interested in joining the Dogwood Charter School Start-Up Committee
