Introduction

The purpose of this *Safe Return to In-Person Instruction and Continuity of Learning Plan* is to provide a clear and concise pathway for logistical planning as it relates to the reopening and sustained operations of the Suffield Public Schools for the remainder of the COVID-19 pandemic. This plan has been designed through the collaborative efforts of district and school personnel in conjunction with the guidance provided by the Office of the Governor, Connecticut State Department of Education, Department of Public Health, Centers for Disease Control and Prevention, North Central District Health Department, and the Town of Suffield First Selectwoman and Emergency Management Director.

It is important to note that our 2021-2022 plan for learning continuity will remain a working document throughout the remainder of the COVID-19 pandemic. Due to the unknown and evolving nature of the pandemic, it is important that this document remain open and flexible as new trends and guidance emerge. As we did throughout the 2020-2021 school year, we will continue to revise our protocols with the guidance we are receiving from the Governor, Connecticut State Department of Education and the Connecticut Department of Public Health. In keeping with last year's reopening plan, the district will continue to utilize the existing eight Core Functions to guide our efforts in operations planning. These Core Functions are comprised of a subset of Sustainability Initiatives that the district will continue to implement so as to sustain our school operations, ensure that our students receive the highest quality of instruction, as well as, continue safeguarding the health and safety of all of our stakeholders. The Core Functions are as follows:

Core Function 1:	Health Services
Core Function 2:	Finance & Facilities
Core Function 3:	Technology
Core Function 4:	Human Resources
Core Function 5:	School Operations
Core Function 6:	Curriculum & Instruction
Core Function 7:	Special Services
Core Function 8:	Communication

Throughout the development of our 2020-2021 *Strategic School Reopening and Sustainment Response Operating Plan* and our 2021-2022 *Safe Return to In-Person Instruction and Continuity of Learning Plan*, the administration of the Suffield Public Schools worked in partnership with multiple stakeholder groups in hopes of engaging in a reflective and collaborative process. In compliance with the Elementary and Secondary Emergency Response American Rescue Plan fund requirement as set forth by the Connecticut State Department of Education, we sought feedback in the development of our 2021-2022 continuity of learning plan. I would like to extend my sincere appreciation to the following subcommittees that were instrumental in the creation of this revised reopening plan:

Suffield Board of Education
Suffield Public Schools Administration and Central Office Staff
Suffield Board of Education Ad-hoc Reopening Subcommittee
Healthcare Professionals Subcommittee (School Medical Advisor & School Nurses)
Collective Bargaining Leadership Subcommittee
Parent Advisory Subcommittee

The 2020-2021 school year provided our school district with many opportunities for growth that are likely to have a lasting impact on the future of the Suffield Public Schools. Parent and community partnerships, teaching and learning practices, and health and safety protocols are just a few of the many significant influences that will forever change the educational and social opportunities our students will experience while attending our schools. However, it is my belief that the new habits of mind our students have developed in response to this global pandemic such as resiliency, empathy, perseverance, and self-advocacy hold the greatest promise in terms of our future as a global society. I would like to, once again, thank everyone for their continued patience, understanding, and support as we enter into what may be the final phase of the COVID-19 pandemic.

Sincerely,

Timothy M. Van Tasel, Ed.D.
Superintendent of Schools

Review updated regulations and monitor their compliance for building use needs during COVID-19 response. Review and monitor protocols for facility usage by parent volunteer groups (PTAC, Suffield Garden Club, SFES, etc.).
<p style="text-align: center;">Preparation and Implementation Timeframes</p> <ul style="list-style-type: none"> June 30, 2021 – August 25, 2021 	<p style="text-align: center;">SUFFIELD HIGH SCHOOL</p> <ul style="list-style-type: none"> Communicate and ensure enhancements or rapid changes to health and safety protocols as needed. Implement BOE policies and monitor system-wide procedures to comply with state requirements.

- Review updated regulations and monitor their compliance for building use needs during COVID-19.
- Review and monitor protocols for facility usage by community groups

English Learners Reopening and Sustainment Overview

Reopening and Sustainment Initiative	Reopening and Sustainment Metrics
<ul style="list-style-type: none"> • Understand that like all other students, ELs are entitled to FAPE. The Civil Rights Act of 1964, Title IV, the Equal Educational Opportunities Act (1974) and the Elementary and Secondary Education Act (1965) provide guidance on the services to which ELs are entitled. ELs must have access to the general education curriculum as well as to a supplemental language instruction education program. During school closures due to COVID-19, ELs continue to be entitled to receive their supplemental EL instructional program in addition to their general education program of mainstream, grade-level and content-area instruction. Such language instructional education programs may consist of a range of services, including bilingual education, English as a Second Language (ESL), Sheltered Instruction and others. When returning to school buildings, language instruction education programs must continue. • Comply with the requirement that eligible students in bilingual mandated districts are offered bilingual education programs. During COVID-19, school districts that are mandated to provide bilingual education remain required to offer a bilingual program to eligible students who have opted into the program. While program implementation may be altered during COVID-19 as compared to traditional in-building schooling, students in bilingual programs are still entitled to receive native language support as part of their school's designated bilingual program model. As with other language instruction education programs, when returning to traditional schooling, bilingual programs must continue. • Communicate with parents and guardians that have limited proficiency in English in a language they understand as required by Title III of the Elementary and Secondary Education Act. As during traditional schooling, communications during school closures due to COVID-19 may be provided through translation and/or interpretation. 35 Adapt, Advance, Achieve: Connecticut's Plan to Learn and Grow Together • Provide ELs who are also identified as students with disabilities supports for their EL needs, as well as supports for their disabilities. During COVID-19, these dually identified students must continue to receive these supports. As in times with traditional schooling, dually identified students should have their language needs represented in their annual meetings about their IEP. 	<p style="text-align: center;">DISTRICT</p> <ul style="list-style-type: none"> • Monitor FAPE for EL, Special Education, and Section 504 students • Ensure that related services are provided per the IEP or Continuity of Learning plans • Engage administration in the monitoring of student assessments to determine current level of functioning

Appendix A: Communications to Parents/Guardians and Staff

SUFFIELD PUBLIC SCHOOLS

Office of the Superintendent

*Timothy M. Van Tassel
Superintendent*

*Laura Guerrette
Executive Secretary*

June 27, 2021

Dear Parents/Guardians and Staff,

In an effort to keep families and staff informed regarding our district operations for 2021 – 2022, we have updated our district’s “*Safe Return to In-Person Instruction and Continuity of Services Plan*” as required by the Connecticut State Department of Education. This plan can be found on our district’s School Model Status webpage. We will continue to update our website to include revisions to our 2021-2022 reopening plan, parent communications, district and school presentations, and other pertinent information. We encourage you to closely follow district communications and our website updates as our plans to reopen the Suffield Public Schools will continue to evolve over the next several weeks.

Important to note, the Board of Education will be meeting for a Special Meeting on Tuesday, June 1, 2021 at 7:00 pm to discuss the district’s allocation of federal Elementary and Secondary Emergency Relief (ESSER) funds. In addition, there will be an update and discussion as it relates to the Suffield Public Schools “Safe Return to In-Person Instruction and Continuity of Services Plan.” This plan can be found on our district website, and a feedback link has also been added to solicit feedback from our stakeholders on our 2021-2022 reopening plan. At Tuesday’s BOE Special Meeting, there will also be a Public Comment opportunity regarding our district’s ESSER Funds and the “*Safe Return to In-Person Instruction and Continuity of Services Plan*” for 2021-2022. Although this meeting will be held in person in the Suffield High School Library, it can be accessed remotely through the following link. Due to space constraints in the library, we are encouraging parents and guardians who are interested in attending to attend remotely.

INTRODUCTION

An increasingly important public health issue that our Nation and the world faces is the threat of a global disease outbreak called a pandemic. It is therefore important that adequate planning take place should a pandemic occur.

The ubiquitous nature of an influenza-like pandemic compels Federal, State, and local governments, communities (including schools), corporations, families and individuals to learn about, prevent, prepare for, and collaborate in efforts to slow, respond to, mitigate, and recover from a potential pandemic. The Update, refinement, and exercise of pandemic influenza-like plans by all stakeholders are critical components of preparedness.

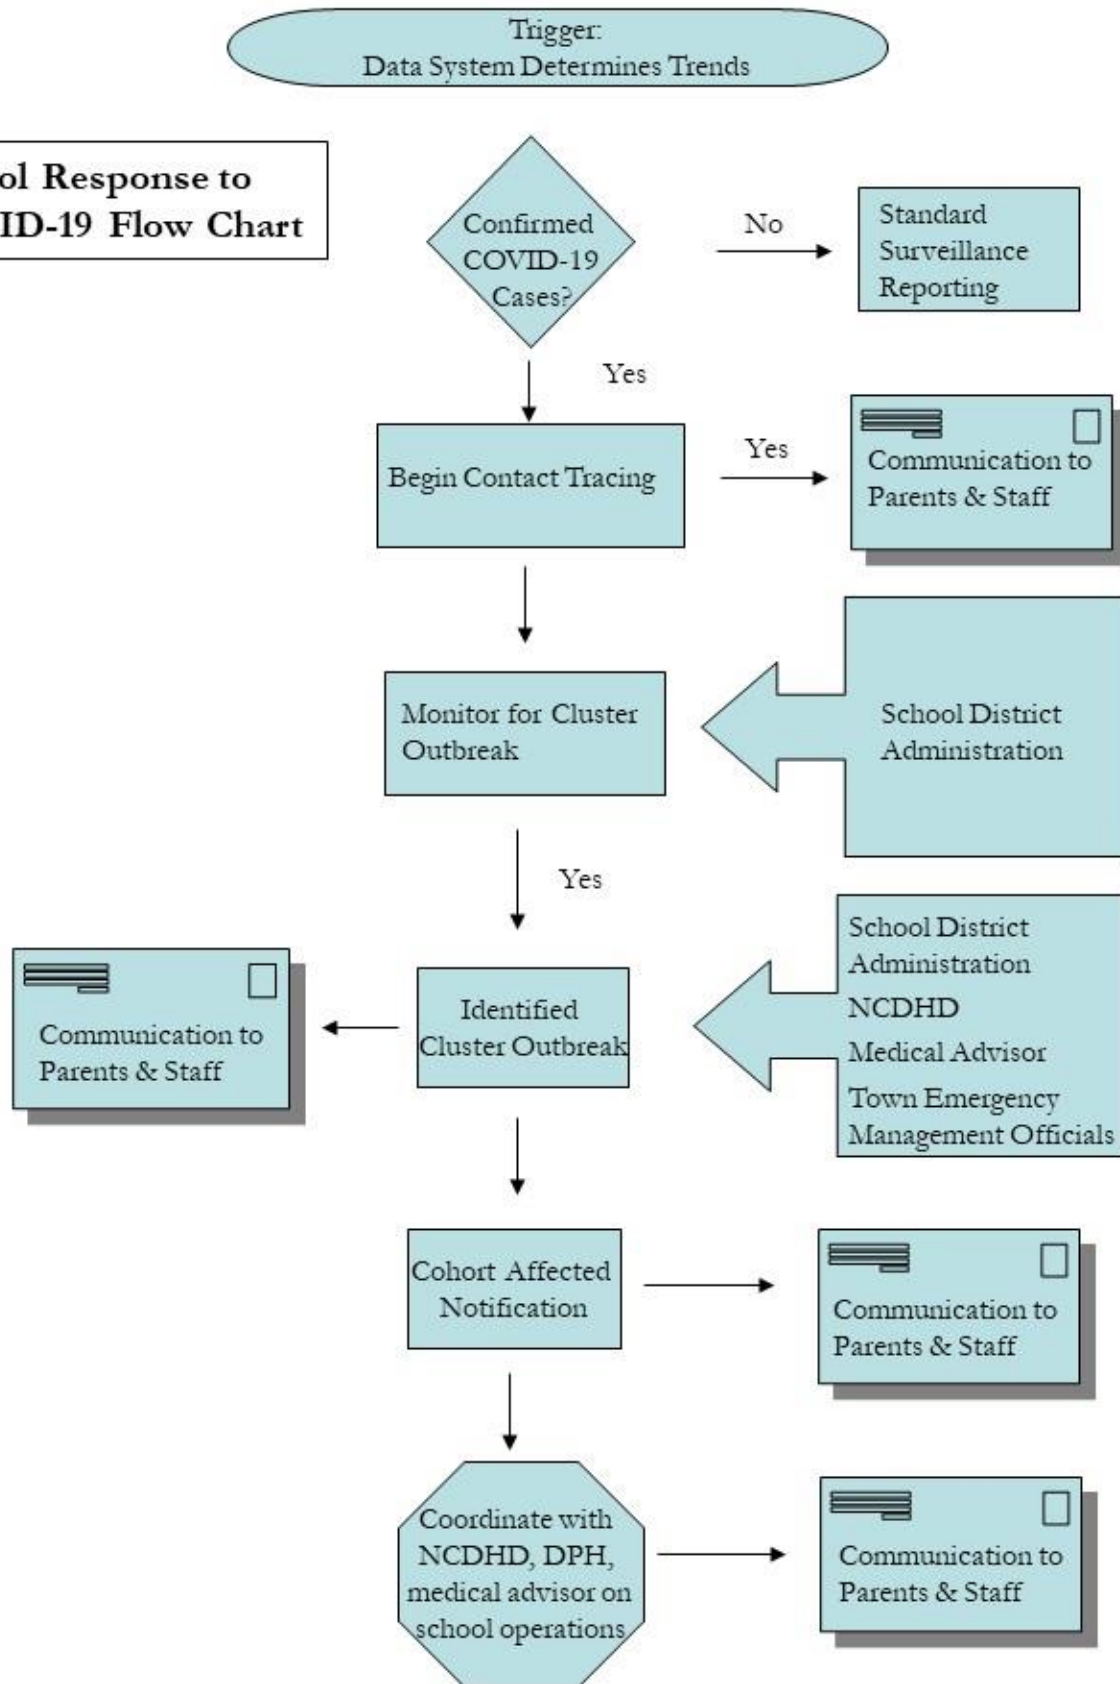

All pandemic plans need to be tailored to local circumstances. The purpose of this plan is to provide a protocol by which the Suffield school system can respond to, mitigate and recover from a possible pandemic. The plan attempts to address not only the health issues, but the continuing educational needs and psychological needs of the school children and staff. Specific interventions regarding the provision of educational instruction should the schools have to close, has not been determined at this time. Those decisions will be predicated upon actions taken and guidance offered by the Centers for Disease Control and Prevention, the State of Connecticut Department of Public Health, the North Central Connecticut Health District, and the State of Connecticut Department of Education.

School Response to Pandemic Flow Chart

Pandemic may have three waves

School Response to COVID-19 Flow Chart

Pandemic may have three waves

INFLUENZA LIKE CASE DEFINITION

The Centers for Disease Control and Prevention defines an Influenza-like illness as having the following symptoms:

Fever of 101.5 degrees Fahrenheit or higher
AND ONE OF THE FOLLOWING

- Cough
- Sore Throat
- Headache
- Muscle Ache

A student with Influenza-like symptoms must be sent to the office for screening (symptom check and/or taking temperature). If student meets the case definition as described above, he/she must be excluded from school until symptom free. Enter the name of student on tracking log and report on the daily/weekly report form.

SCHOOL ACTION STEPS FOR PANDEMIC INFLUENZA-LIKE ILLNESSES

The following is a chronological list of important step-by-step actions schools should take before, during and after a Pandemic Influenza-like outbreak. Pandemic Influenza-like illnesses can have several cycles or waves so this list may need to be repeated.

PRIOR TO OUTBREAK/PREPAREDNESS & PLANNING PHASE

- Create a Pandemic Influenza-like plan.
- Work with local health officials and emergency preparedness officials. They may want to use the schools as a way to disseminate information to families.
- Continue routine interventions to prevent spread of illness in schools (i.e. classroom education; signage for hand washing).
- Nurses communicate with staff on Influenza-like symptom recognition.
- Remember that a person who is infected does not show symptoms right away. But children who are getting ill may show different behavior than usual, such as eating less or being irritable.
- Ensure that standard surveillance/disease recognition procedures are in place and implemented, such as daily and weekly attendance grids.
- Improve the hygiene of students and staff.
- Use simple non-medical ways to reduce the spread of Influenza-like illnesses by “cough and sneeze etiquette,” clean hands, and clean work areas.
- Determine improved/modified cleaning procedures (Facilities Director will be informed.)
- Determine whether the school should be cleaned differently or more often.
- Decide to what extent you will encourage or require children and staff to stay home when they are mildly ill. (Parent Communication to Occur)
- School nurses identify students who are most vulnerable to serious illness immune compromised, chronic illness, etc.
- School nurses will review the health needs of students.
- Some students and their families may have a greater risk of infections. Encourage those families to talk to their health care provider. Some parents may need to be more cautious in keeping their children out of school. REVIEW EXCLUSION CRITERIA with Public Health Department (i.e. illness free for 24 hours). See standing orders in nurses’ office; modify if needed.
- Through monthly newsletters, the website, and nurses’ hotline, educate staff, students and parents about the differences between seasonal flu, bird flu, and Pandemic Influenza-like illnesses.
- Through monthly newsletters, the website, and nurses’ hotline, educate staff, students and parents on the best hygienic practices to prevent any sort of Influenza-like illness.
- Through monthly newsletters, the web-site, and nurses’ hotline, educate staff, students and parents on what could occur in a pandemic.
- Update specific plan for how to continue students’ education if schools are closed (i.e. web-based distance learning, mailed lessons).

Outbreak of Influenza-like Disease**LESS THAN 10% OF STUDENTS**

- Begin Heightened Surveillance Reporting.
- Send out Parent Communication regarding Initial Outbreak.
- Inform parents that some students are sick but schools remain open.
- Include tip sheets and info resource list.
- Work with North Central District Health Department regarding a Press Release A announcing schools remain open but parents need to prepare.
- Post Influenza-like illness prevention signs throughout the schools.

Expansion of the Outbreak**10% OR MORE OF STUDENTS ILL (but less than 30%)**

- Request the North Central District Health Department to issue ADA Support Letter to schools/Epidemic Declaration.
- Begin Intensive Surveillance Reporting (absentee grids).
- Send Parent Communication regarding Expanded Outbreak.
- Include prevention tip sheets.
- Resources for Emergency Information.
- Consider canceling any non-academic events.
- Coordinate with Facilities Director to initiate specialized cleaning procedures.

Continued Expansion of the Outbreak**MORE THAN 30% OF THE STUDENTS ILL**

- North Central District Health Department issues declaration and school district issues press release closing school(s).
- Close school.
- Send Parent Communication regarding potential School Closure, announcing closure(s). School Closure is at the direction of the Public Health Agency.
- Cancel any non-academic events.
- Continue specialized cleaning procedures.

Following the Outbreak

- North Central District Health Department issues declaration and school district issues press release that schools can reopen.
- Send Parent Communication.
- Continue communicating with local health department.
- Return to heightened surveillance reporting.
- Ongoing specialized cleaning procedures.

If students get sick again, start checklist again at Outbreak section.

DRAFT

Suspension of classes and other public gatherings

Under the Suffield Public Schools Pandemic Response Plan, direction will come from the Superintendent's office to suspend classes and other public school events. Criteria for the decision to suspend classes includes one or more of the following:

- Confirmation of a high rate of infectivity, morbidity and/or mortality
- North Central District Health Department's recommendation to curtail/cancel public activities
- Falling class attendance (see School Response to Pandemic Flow Chart)
- Rising employee absenteeism

Continuity of Instruction

Consider these issues in the event of a 4-8 week class suspension on instruction:

- Identify essential functions that must continue.
- Identify essential personnel (if available) to maintain these essential functions.
- Update alternative plans, i.e., distance learning.
- Reschedule the instructional calendar after the period of contagion has passed.

Limitation of all other school business activity

Under the Suffield Public Schools Pandemic Response Plan, direction will come from the Superintendent's office to limit business activity. Criteria for the decision to limit business activity includes one or more of the following:

- Suspension of classes and other public gatherings
- Confirmation of a high rate of infectivity, morbidity and/or mortality.
- Direction from the North Central District Health Department to curtail/cancel public activities.
- Falling class attendance (See School Response to Pandemic Flow Chart).
- Rising employee absenteeism.

Continuity of Business

Consider these issues in the event of a 4-8 week limitation on business:

- Essential functions that must continue
- Essential personnel (if available) to maintain these essential functions
- Alternative work plans, i.e., telecommuting
- Recovery of full business operations

BUSINESS CONTINUITY PLAN

This plan describes the critical functions and positions, designated personnel and response/recovery actions for Suffield Public Schools. Sections I to II require planning that is applicable to many types of emergency events or disaster scenarios. This document can be used as the business continuity plan for all hazards that could potentially impact Suffield Public Schools. This document will be combined with the Suffield Public Schools Emergency Management/Response Plan.

This plan should be reviewed every 3 years or when significant changes occur to business processes and functions whichever occurs first.

TABLE OF CONTENTS

I. Planning Structure:

- 1) Organization Chain of Command
- 2) Business Continuity Workgroup

II. Phases of Pandemic Influenza-Like Illness and Recommendations for the School

I. PLANNING STRUCTURE

1. **The organizational chain of command consists of:**
(List those leaders whose areas are included in this plan)

Name	Position	Work Location	Email	Office Phone	Home Phone	Cellular or Other	Text Capable?
Timothy Van Tasel	Superintendent	Central Office	tvantasel@suffield.org	668-3394		559-4659	Yes
Laura Guerrette	Admin. Assistant to the Super.		lguerrette@suffield.org				
Michelle Zawawi	Assistant Superintendent	Central Office	mzawawi@suffield.org	668-3806		372-6479	Yes
Diana Kelley	Director of Special Services	Central Office	dkelley@suffield.org	668-3803		837-4762	Yes
Bill Hoff	Business Manager	Central Office	bhoff@suffield.org	668.3202		461-3202	Yes
Larry Plano	Director of Facilities	SHS	lpiano@suffield.org	668-3807		951-2273	Yes
Rebecca Osleger	Director of Technology	SMS	rosleger@suffield.org	668-3333		559-0112	Yes
Sue Mercik Davis	Chair of BOE		smercikdavis@suffieldstudent.org			559-3832	Yes

2. **The Business Continuity Workgroup is:**
(List persons responsible for creating and maintaining this plan)

Name	Office Phone	Cellular or other
Melissa Mack, First Selectwoman	860-668-3838	
Patrice Sulik, Director North Central District Health Dept.	860-745-0383, ext. 117	
John Spencer, Chief of Services Suffield Volunteer Ambulance Assoc.	860-668-3881	860-212-4465
Chuck Flynn, Fire Chief	860-668-3888, ext. 3303	
Mike Thibedeau, Fire Marshall	860-668-3888, ext. 3304	
Richard Brown, Police Chief	860-668-3382	860-614-9111
James Canon, Police Captain	860-668-3870, ext. 3380	860-595-7199
Tom Kieselback, School Resource Officer	860-549-2350	860-209-6653

3. **Nurses' Hotline**

Name	Hotline
Marissa Auclair Lead Nurse	860-668-3225

II. PHASES OF PANDEMIC INFLUENZA-LIKE ILLNESSES AND RECOMMENDATIONS FOR SUFFIELD PUBLIC SCHOOLS

Each of the following pandemic phases represents an increasing risk to the general population.

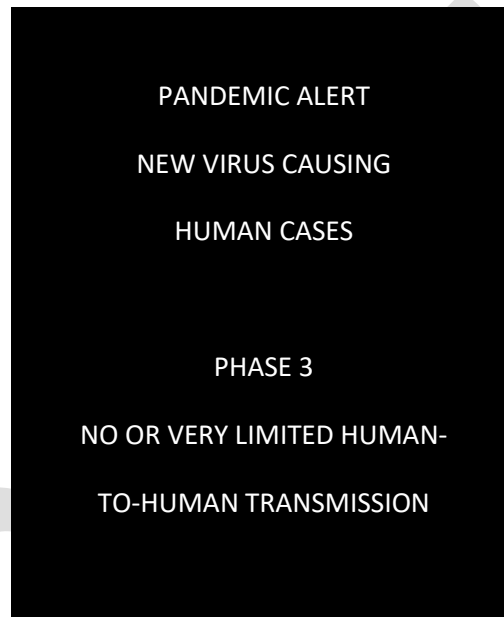

This phase is declared when there is a low risk of human cases. The following actions should be considered:

- Implement a sound health and hygiene program for all staff and students to follow.
- Update specific pandemic response procedures and add to existing emergency plans.
- Conduct routine inventories of first aid and medical supplies.
- Verify that illnesses are properly monitored at each school site.
- Monitor trends, track percentage of student & staff illnesses at each school site.
- Increase pandemic awareness and strengthen training for school staff.

This phase is declared by the Superintendent of Schools when there is a higher risk of human cases. The following actions should be considered:

- Call Pandemic Response Team meeting to notify participants.
- Review and update school emergency plans; include pandemic response procedures.
- Review current communication plan to notify parents in times of emergency.
- Provide staff members and parents/guardians with any information that would strengthen a school's ability to respond to a pandemic.
- Promote the importance of reducing the spread of illness.
- Remind parents to keep sick children at home and remind staff members to stay home when they are sick.

This phase is declared when there is no, or very limited transmission among humans, but the virus continues to spread rapidly among animals. The following actions should be considered in addition to any specific plans that are Updated and implemented:

- Initiate Pandemic Response Team meeting.
- Communicate the current phase level to all staff members and train them in pandemic response plans as they are Updated.
- Communicate with North Central District Health Department, who will monitor government sources for warnings.
- Gather and disseminate pertinent information as it becomes available.
- Establish an internal planning team and Update specific pandemic response procedures.
- Identify who will make the decision to close schools (Superintendent) and at what point that decision will be made.
- Begin to consider the possibility of school closures and that staff members may not be able to report to work.
- Continue to verify proper health and hygiene procedures are being followed by staff and students.
- Review whether the precise characteristics of the pandemic threat require the refinement of any current emergency plans.
- Monitor daily illness trends & percentages

DRAFT

PANDEMIC ALERT
NEW VIRUS CAUSING
HUMAN CASES

PHASE 4
EVIDENCE OF INCREASED
HUMAN-TO-HUMAN
TRANSMISSION

This phase is declared when there is evidence of an increased number of human-to-human transmissions. The following actions should be considered:

- Communicate the increase in phase level to all staff members.
- Monitor surveillance systems for the current characterization of the virus.
- Identify the need to implement any recommended social distancing measures.
- Encourage students and staff members who become ill after traveling to affected countries to see their health care provider.
- Report an increase in student and staff illness to the North Central District Health Department.
- Coordinate with the Superintendent's office daily.

PANDEMIC ALERT
NEW VIRUS CAUSING
HUMAN CASES

PHASE 5
EVIDENCE OF SIGNIFICANT
HUMAN-TO-HUMAN
TRANSMISSION

This phase is declared when there is significant transmission among humans. The following actions should be considered in addition to any specific recommendations from local and state health officials:

- Mobilize Pandemic Response Team
- Communicate the increase in phase level to all staff members and parents. (See School Response to Pandemic Flow Chart.)
- Monitor surveillance systems for the current characterization of the virus.
- Identify the need to implement any additional social distancing measures.
- Evaluate your chain of command and identify key decision makers.
- Assess school events and take additional precautions, if necessary.
- Consider assigning mental health counselors for students and staff members, if needed.
- Discuss students' fears concerning a pandemic and offer available resources.

This phase indicates the presence of a true pandemic. In conjunction with local and state health officials, determine the appropriate response with these considerations in mind:

- Communicate the increase in phase level to all staff members.
- Review the districts chain of command ensuring that a decision maker is available at all times.
- Gather and provide pertinent information to students, staff and parents. (See School Response to Pandemic Flow Chart.)
- Assess the pandemic condition on a regular basis and evaluate whether any further protective measures are needed.
- Evaluate recommendations from health officials for social distancing and quarantine and be prepared to respond accordingly.
- Consider canceling special events.
- Mobilize Crisis Teams to meet the mental health needs of students and staff members, if needed.

SURVEILLANCE AND REPORTING

During all stages of a Pandemic Influenza-like outbreak, it will be essential to monitor and document the number of students and faculty who are absent and meet the definition of an Influenza-like illness. Keeping track of these numbers will help health officials determine when and whether to close schools, whether the epidemic is increasing in scope and whether to declare an epidemic, making schools eligible to apply for reimbursement of ADA funds during increased absenteeism.

Schools are provided with the following information to monitor the illness rate and potential epidemic:

- Basic surveillance instructions and definitions of surveillance levels.
- Case definition to assist in determining whether the ill student and/or faculty is suffering from an Influenza-like illness.
- Reporting form(s) to submit to the North Central District Health Department.
- Sample Attendance Log to identify Influenza-like related absences and document need to apply for an Average Daily Attendance Waiver

DEFINITION OF SURVEILLANCE LEVELS

Standard Surveillance

No Influenza-like activity reported in the community (flu season)

- Monitor daily attendance for increased reports of absence due to Influenza-like illness.
- Do not report absences to the Health Department unless greater than 10%.

Heightened Surveillance

Influenza-like activity reported in the community (less than 10% school absenteeism due to Influenza-like illness)

- Monitor daily attendance for Influenza-like illness/absences.
- Begin morning “Influenza-like check” first hour of school – screen those who report positive for symptoms.
- Log absences due to Influenza-like illness.
- Send weekly absence report (via fax) to the Health Department.

Intensive Surveillance

High number of Influenza-like illness reported in the community (10% or greater school absenteeism due to Influenza-like illness)

- Monitor daily attendance and log absences on log sheet.
- Continue morning “Influenza-like check.”
- Send daily absence report to the Health Department.
- Begin preparation for potential school closure.

Appendix C

Suffield Public Schools Illness Protocols – *WORKING DRAFT*

Protocols and Training for Health and Safety Plan

- I. Student or staff present with symptoms:
- A. Student presents with symptoms:
- a. Call to nurse's office
 - b. Student will be screened for the following symptoms:
 - Fever of 100.4 or higher
 - Cough
 - Shortness of Breath
 - Sore Throat
 - Fatigue
 - Loss of sense of taste or smell
 - Abdominal pain/diarrhea/vomiting
 - Rash
 - Conjunctivitis
 - Known contact with someone who is COVID-19 positive
 - c. Phone call to parents to pick up the student
 - d. If the student complains of shortness of breath or condition worsens- implement EMS protocols
- B. Staff presents with symptoms
- a. Staff member will report to the nurse's office and screened for above symptoms
 - b. Staff member will be sent home if presenting with one or more symptoms
 - c. Office staff will find substitute coverage
- C. Protocol for staff and students to return to school (WILL BE UPDATED AS PER CDC and DPH GUIDANCE)
- a. If there is a diagnosis of a discrete infection (such as positive strep throat, UTI, ear infection, etc.) and treated with antibiotics student/staff may return to school if they have been:
 - Fever free for 24 hours without the use of anti-pyretic medication
 - Symptoms have significantly improved
 - b. If there is no diagnosis of discrete infection and corresponding treatment, the unvaccinated individuals must stay home for a minimum of 10 calendar days from the onset of symptoms and to return they must be:
 - Fever free for 24 hours without the use of anti-pyretic medication
 - Symptoms have significantly improved
- OR**
- If there is no diagnosis of discrete infection and corresponding treatment, the unvaccinated individual may return to school on Day 8 if he or she has had a documented negative COVID-19 test after the Day and:
- Fever free for 24 hours without the use of anti-pyretic medication
 - Symptoms have significantly improved

-
- c. If the student/staff has a positive COVID-19 test, they must stay home for a minimum of 10 calendar days from the onset of symptoms and to return they must be:
 - Fever free for 24 hours without the use of anti-pyretic medication
 - Symptoms have significantly improved
 - d. If an unvaccinated student is exposed to a known or suspect case of COVID-19, they must stay home a minimum of 10 calendar days, unless they produce a negative COVID-19 test after Day 5, of which they will then be able to return on Day 8.
 - e. Nurse will log the return to school date in SNAP

II. Communication Protocols:

- A. Letter to be sent home to families in August with the following information:
 - a. Symptoms to look for prior to sending children to school
 - b. Pick up procedures should a student present with COVID-19 like symptoms
 - c. Return to school requirements
- B. A staff member or student tests positive for COVID-19 (Refer to pandemic plan)
 - a. District will notify the local Health Department
 - b. Communication sent home to families
 - c. District will monitor for clusters of cases (3 or more)
 - d. Coordinate with the Health Dept. to determine any changes to school schedule or possible closure
- C. Signs with symptoms to look for and safety measures will be posted throughout the buildings, provide magnets to families

III. Contact Tracing

- A. Each school will create a contract tracing binder containing the following information:
 - a. Class lists with seating chart
 - b. Cafeteria seating chart
 - c. Bus lists
 - d. Staff schedules
 - e. Student schedules
 - f. Students participating in extracurricular activities lists (sports, clubs, etc.)
- B. Binders will be updated monthly

IV. Training Protocols

- A. Videos will be created with the following information:
 - a. Handwashing
 - b. Cough/Sneeze Etiquette
 - c. Mask wearing
 - d. Social Distancing
- B. Videos will be shown to students the first day of school
- C. PowerPoint to be created and narrated by nurses to review ill student or staff protocols
- D. Staff will receive training the week of August 24th
