

SUFFIELD PUBLIC SCHOOLS

*Preparing students with the knowledge, skills, and attributes
required for success in a rapidly changing world.*

Dear Parents and Guardians:

As a courtesy, I am reaching out to let you know that there has been a change in the way students can engage with school-based Google services on personal cell phones.

Google has enhanced the security and I have provided the attached instructions which will walk students through how to configure these security enhancements.

I want to clarify the "remote access" that you are authorizing is the ability for Suffield Public Schools to manage any google data that belongs to SPS. We do not have access to remote into cell phones or any other parts of your child's phone.

Again, we are providing these instructions as a courtesy, Suffield Public Schools does not support personal devices and therefore you assume full responsibility for downloading and engaging with these apps.

Questions, please speak with your building principal or Rebecca Osleger, Director of Technology. rosleger@suffield.org

Thanks,

Rebecca Osleger

Director of Technology
