2. Construction Meeting December 8, 2021

There were no safety incidents or issues to report and no COVID updates or issues to report. The Town of Vernon has not yet responded to Methuen's claim for the 71-day contract extension due to the *Force Majeure* weather delay. Also, the heating systems are mostly up and running in all the buildings; Disc Filter #3 was discussed again; the issues regarding Intermediate #3 pump were investigated and the manufacturer said it was a VFD issue. A 22-calendar day delay due to COVID, supply chain demand and weather related issues was discussed at length relative to the odor control process.

3. Summary of Activities

Robert Grasis reviewed a summary of activities that included:

- Aeration Tank #6 was put online last week
- RAS work continues
- Final Clarifier #1 factory fix is complete
- Work continues on the filter, solids handling, secondary sludge and blower buildings
- Work continues on the North UV Channel
- Abatement work continues on Clarifier #2
- Demolition work continues on the south substation
- The south generator concrete pad was demolished
- The north UV weir was installed

4. Upcoming Schedule

Robert Grasis reviewed details of a three-week look-ahead schedule that was distributed to committee members.

5. Change Orders

Robert Grasis provided background information on three change orders and answered questions from committee members.
