

This is a list of all competitions for SkillsUSA, and includes information about the level of competition (District, State, other) as well as information about team events. *This is a universal list that contains some competitions that Minuteman High School does **not** compete in.* It should be noted that the “Entries” denomination is the number of teams or individuals, respectively, that a chapter can send to that competition. If more than that number of competitors enter, in-house competition will most likely take place. See underneath the list for more information on the Minuteman chapter competitions.
