

CLASS OF 2021

The St. Mark's Class of 2021 walked our halls for a combined total of 250 years. While the end of their time at St. Mark's certainly looked differently than anticipated, we are beyond proud of the way this class showed resilience, grace, and kindness during a difficult season. We are thrilled to send these 45 students into the world of high school, where we know they will do great things!

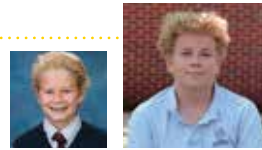

Coulson Batchelor

First Year at St. Mark's: *Kindergarten*

What problem would you like to solve?

I would like to help connect people in South East Asia and Africa to the amazing thing that is the internet by creating less internet intensive communication software, and driving down the cost of cellular data.

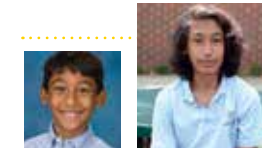

Sawyer Bloesch

First Year at St. Mark's: *7th Grade*

What problem would you like to solve?

I would like to reduce the amount of green house gas that we are currently making so that we can have a more eco friendly world.

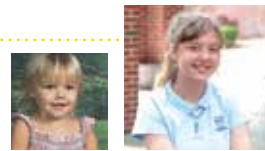

Beckim Cortez

First Year at St. Mark's: *4th Grade*

What course at St. Mark's was most useful?

I believe that it would be math because of how many more courses that are required of it.

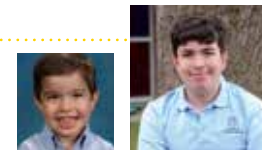

Brooke Crabtree

First Year at St. Mark's: *Preschool 2s*

What course at St. Mark's was most useful?

I think that Spanish prepares us for not only high school but life after that, because being bilingual is an extremely important skill to have today in diverse workplaces.

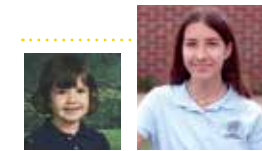

Eric Curran

First Year at St. Mark's: *Preschool 3s*

What course at St. Mark's was most useful?

Science.

Nina Cushman

First Year at St. Mark's: *Preschool 2s*

What course at St. Mark's was most useful?

History, because we learn about current events and issues that we can help fix and it helps us become more aware of the world around us.

Artyom Derkach

First Year at St. Mark's: *Preschool 2s*

What course at St. Mark's was most useful?

I think math prepares you most for life after middle school because math classes get increasingly harder so you need good basics.

Polina Derkach

First Year at St. Mark's: *Preschool 2s*

What problem would you like to solve?

I want to be a doctor in family medicine. A problem I would like to solve is for people to have access to health care.

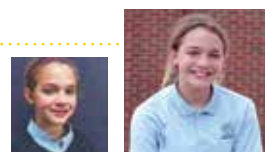

Sehaj Doshi

First Year at St. Mark's: *Preschool 2s*

What problem would you like to solve?

I would like to solve the issue of poverty in the United States.

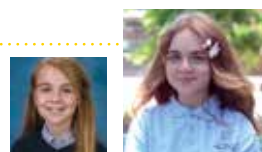

Eloise Du Vigneaud

First Year at St. Mark's: *5th Grade*

What course at St. Mark's was most useful?

Math, because in my opinion it is the most useful

Lily Fellows

First Year at St. Mark's: *6th Grade*

What problem would you like to solve?

I don't want anyone to struggle with bad mental health because it can impact your life a lot and I would hate to see other people struggle. I have deep empathy for people who struggle with illnesses and I would never want someone to feel that pain.

Clayton Gaither

First Year at St. Mark's: *3rd Grade*

What course at St. Mark's was most useful?

Math, we were taught real world problems and how to use them.
