ce4all.org | 952.556.6400

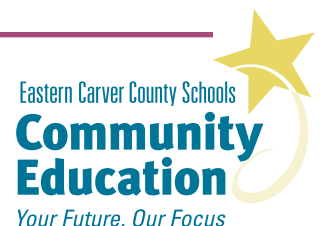

The StormHawks Preschool program offers a high-quality early learning opportunity using the **Early Childhood Indicators of Progress (ECIPS)**, Minnesota's early learning standards. Preschool classrooms use the core elements of the **Creative Curriculum**, a research-based curriculum that features exploration, inquiry and discovery to guide learning. Teaching staff develop units of inquiry based on students interests to make learning meaningful. Classrooms use **Teaching Strategies Gold** objectives and standards that are aligned to the district's kindergarten standards. We provide a personalized learning experience for every child.

We welcome every learner...all preschool classrooms:

- Are developmentally appropriate programs that support active learning and promote children's progress in all developmental areas. Classrooms feature Play, Exploration, and Personalized Learning.
- Employ teachers who are committed to creating an environment which will prepare children for kindergarten in district schools.
- Include teachers licensed by the Minnesota Department of Education, many have Masters Degrees in teaching or related fields.
- Partner with Eastern Carver County Early Childhood Special Education.
- Are four-star Parent Aware rated, promoting high-quality education opportunities for our youngest learners.

StormHawks Nature-Based Preschool in partnership with Tanadoona 3-5 years

Spark your child's curiosity through hands-on, experiential learning focused on environmental education in the outdoors. This program is designed for students who want to learn through exploration and are comfortable in an outside environment for extended periods of time (some days it may be the whole class time). Students must have the prerequisite skills of being fully potty trained and listening/attention skills to stay with the group. A list of outdoor clothing will be provided to families, we are hoping to have grant money available to families who need assistance with purchasing necessary equipment. This class will continue to use our Creative Curriculum and Teaching strategies Gold assessment but will focus on the Science Standards. This class includes 31 field days at Tanadoona and regular planning/consultation between the naturalist and the preschool teacher. Parents will need to drop off and pick up at Tanadoona on Fridays.
