
What is it?

IB Career Program Students will complete the following:

- 3 credit CTE pathway
- 2 IB Diploma courses and pass the exams
- Personal & Professional Skills course
- Language Development Portfolio
- Service Learning (Internship)
- Reflective Project

You've identified a career and you want to gain more in-depth knowledge.

.....

The IB Career-Related Program combines the power of the IB educational philosophy with a focused career-related study. Students that participate in the IBCP will hone their critical thinking & creative problem-solving skills, engage in on-site training, rigorous research, and develop strong communication skills in both writing and speaking. Students will make connections between their chosen career and technical classes and their core classes to maximize their success.

How is IB different from other advanced options?

The IB mission statement describes the difference best. It says we "aim to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect...these programs encourage students across the world to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be right.

.....

How you learn is just as important as **what** you learn!
