January 10, 2022

Dear TUSD Parent, Guardians, & Students,

Currently, COVID-19 vaccines are **NOT** a requirement for school, however TUSD does anticipate this to become a requirement by July 1, 2022. Since many students and families have inquired about voluntarily providing proof of student vaccination records to our school sites, our school sites are prepared to accept them from you. If your child has received the COVID-19 vaccines and you have this record, please submit it directly to the office staff at your child's school site. The following options for providing proof of COVID 19 vaccination records include:

1. Vaccination card
2. Digital photos of vaccination card or record
3. Vaccination certificate with QR code
4. Digital pass via Smartphone application with QR code

All forms of proof of COVID-19 vaccination must have:

- Personal identifiers (full name plus at least one other identifier such as date of birth or passport number) that match the personal identifiers on the passenger's passport or other travel documents
- Name of official source issuing the record (e.g., public health agency, government agency, or other authorized vaccine provider)
- Vaccine manufacturer and date(s) of vaccination

Safety and wellness are a top priority for TUSD students and staff. Should you need any direct support and/or resources for your child, please contact the parent liaison, office staff, or your site administration team at your child's school site. For further support regarding student immunizations or student health, feel free to reach out to our Health Services Department at 209-830-3241 x. 1250. For mental wellness or community resources for your child, feel free to reach out to our Prevention Services Department at 209-830-3218.

Sincerely,

Mary Petty, Ed.D

Director of Student Services and Curriculum
