---------------	---

---

<b>Item 6</b>	<b>Community Items</b>
---------------	------------------------

---

### **Current School Improvement Plan Goals**

- 1) K-6 students will demonstrate an increase in reading skills, between Middle of the Year 2021 and MOY 2022, by showing a 4% increase of students with typical or greater growth, as measured by Acadience (Pathways to Progress).
- 2) Seventy percent of our 3-6th grade students will score proficiently on a preselected grade level math benchmark test.
- 3) Improve school climate and build a sense of safety within the school community by implementing Social Emotional Learning instruction and strategies, as measured by demonstrating growth in both the SEL Walkthrough tool and DSD School Climate Surveys, when compared to the prior year's data.
- 4) Demonstrate at least 2% student growth in reading, math, writing, and science content areas as measured by RISE, iReady, or Acadience benchmark testing, by providing teacher development opportunities, promoting instructional rigor, and demonstrating growth in use of classroom technology and personalized instruction.

Next Meeting: March 9, 2022
