

LearnUpon Instructions

Greetings, members,

We are excited for all members of Education Minnesota to access our new online learning platform, LearnUpon. Back on July 1, the Education Minnesota online PD team imported over 70,000 members onto the platform – that import sent an automated invitation to members' email. The invitation included a link to complete the account set-up.

Because of the email possibly being sent to spam/junk folders (and then automatically deleted after 30 days) and/or members not recognizing the sender, there is a chance that members did not receive the invite. Please complete the following if you need access to LearnUpon:

1. Check your email (inbox, spam/junk, both school and personal addresses) for a message from 'Education Minnesota Online PD Team' (notifications@learnupon.com) that was sent on July 1. If you can locate that email – that is your ticket into the platform. Click on the link in the email to finish setting up your account.
2. If you are unable to locate the original message, send an email to learnupon@edmn.org (this is a different email than the one above). We have a team of staff that monitor that inbox and will send you a new invitation within the next day or so.

Once you set-up your account, you can simply go to educationminnesota.learnupon.com and log-in using the same email and password that you used during the initial set-up.

If you have any questions about this process, please contact learnupon@edmn.org.

Thank you!
