### PROFESSIONAL SERVICES PROCUREMENT NOTICE

**ADDENDUM NO. 1 – January 10, 2022**

### REQUEST FOR QUALIFICATIONS

### On-call Engineering Services for Drinking Water and Wastewater System Improvements

#### TO ALL PROSPECTIVE RESPONDING FIRMS:

**This Addendum includes responses to questions received, as noted below.**

**Please acknowledge receipt of this Addendum as part of your response.**

#### QUESTIONS RECEIVED AND ANSWERS

Q.1. Is the intent of this RFQ to select a single engineering firm or multiple engineering firms? Paragraph II. seems to indicate that a single engineering firm will be selected to complete the projects listed in the RFQ? However, paragraph V.B.3. seems to indicate that multiple engineering firms may be selected based on each “Task Order”? What is the intent? If individual firms will be selected can they state which projects they are proposing on (1-Lead Service Line Replacement, 2-Hydraulic Model or 3-Additional Water and Wastewater Projects)?

A.1 The intent is to select a single engineering firm for the work. We expect to negotiate scopes of the included subject work (Lead Service Line and/or Hydraulic Model) as initial Task Order(s). We may add Task Orders for additional water and wastewater projects for later-defined scopes.
