

Good morning Finalsite Clients,

At this time, 99.9 percent of websites have been restored including front end and admin access.

Our team is still working to restore eNotify, File Manager and Media Manager assets, and integrations. We'll provide you with another update this evening or as soon as new information is available.

Sincerely,

Tim McDonough
Chief Client Officer

Finalsite, 655 Winding Brook Drive, Glastonbury, CT 06033, USA
