

Good morning Finalsite Clients,

All websites have now been restored. Messages and eNotify are both fully operational.

File Manager and Media Manager assets will continue to be brought back online today. This is a slower process due to the volume of files involved. Our team is diligently working on to restore data integrations as well as some auxiliary services today. These are the final remaining elements leading to full restoration of our systems and we send a status update upon resolution.

Please [contact our Support Team](#) if you experience any issues outside of the items mentioned above.

We invite you to join our executive team for a live update today. We have two more webinars scheduled. We will send a webinar recap for those who were unable to attend.

- [Click Here to Register for Monday, January 10 at 11:30 AM EST](#)
- [Click Here to Register for Monday, January 10 at 8:00 PM EST](#)

We will send another status update in the evening (EST) today, or upon full resolution of the final elements listed above. Please expect additional communication later today with a forensic investigation status update.

Thank you for your immense patience and understanding.

Sincerely,

Tim McDonough
Chief Client Officer

Finalsite, 655 Winding Brook Drive, Glastonbury, CT 06033, USA
