

Pathways in Technology Early College High School (P-TECH) Admission Policy:

All Brownsville Independent School District Pathways in Technology Early College High School (P-TECH) follow the school within a school model. For admissions, students are chosen through a weighted lottery that favors students who are at risk or who are part of the targeted subpopulations for the P-TECH model. Specifically, students who complete all required paperwork to be part of the P-TECH 9th grade cohort are then given an Pathways in Technology Early College High School Commitment Form where all relevant PEIMS data is pre-slugged based on the district's data base. Once the Commitment Form is returned to the home P-TECH campus, all students who returned the form will go into the lottery one time. A student will go into the lottery an additional time for each of the following identified PEIMS measures: at-risk, Hispanic, economically disadvantaged. Therefore, a student's name can go into the lottery anywhere from one to four times depending on the PEIMS indicators.
