

Greetings to the students and families of TISCS!

My name is Kristi Basacker and I am truly honored to be a part of the TISCS family for the upcoming school year. I am married, have a wonderful son, and a loving extended family. I enjoy reading, listening to music and dancing, working out, and spending time with friends and family.

My teaching career began in the Fairfield-Suisun Unified School District teaching middle school Science and Physical Education. I then moved to the Lincoln Unified School District to teach 8th grade. Finally, I took a few years off to be a mom and found a permanent home in Tracy. I came to work at George Kelly Elementary in 2005 when the school opened. The first four years, I taught 4th-8th grade P.E. and 6th-8th grade Science. For the past twelve years I have taught 7th grade Science at Kelly.

Being an educator has been important to me since I was a little girl playing school with my stuffed animals. Teaching and supporting students in their education is the most rewarding profession I could be in. I strive to connect with students in order to instill independence, inquisitiveness, a hard-working attitude, and perseverance as a life-long learner. While focusing on the academics, I hope to create a welcoming atmosphere that encourages students to be their best every day.

I am excited for the school year to begin and look forward to teaching and supporting students and their family at the Independent Study Charter School.

Mrs. Basacker
