Dear Dr. Ronnqvist:

Enclosed is a table of results for the radon performance test in which you recently participated using alpha-track devices (NRPP Device Code #8302). None of the values of Absolute Individual Relative Error of the reported measurements was greater than 25%; therefore, you passed the performance test. Please send a copy of this report to the NRPP when you apply for renewal of your certification, or whenever NRPP personnel request proof of passing a performance test.

If you have any questions, or require any further information, please call me at (937) 236-8805, ext. 249 or send e-mail to jnewton@bowser-morner.com.

Very truly yours,

Jill P. Newton
Manager, Radon Reference Laboratory
