

# **Mask Requirements for Meadowbrook Students and Faculty**

Effective February 1, 2022

Faculty and students are now required to wear high-quality FFP2 masks indoors. An FFP2 is a mask that filters at least 94% of all aerosols; examples of FFP2 masks include N95, KN95, and KF94 masks. FFP2 masks are the best option for superior fit and filtration.

Students who do not have an FFP2 mask will be provided one. Faculty are provided their masks by the school.

There are many options sold online, but be aware of counterfeit masks. Here are a few FFP2 vendors we can recommend:

- [Armbrust](#)
- [Be Healthy](#)
- [Bona Fide Masks](#)
- [Lutema](#)

If someone chooses to “double mask,” an FFP2 mask must be closest to the face with another mask over it. Make sure the mask:

- fits snugly but comfortably against the side of the face
- completely covers the nose and mouth
- allows for breathing without restriction

Individuals with specific mask needs (fit or skin reactions, for example) can contact the health office for options/accommodations.

Masks are required indoors, except when eating. Masks are optional outdoors.
