**COVID-19**

## **KINDERGARTEN OR ELEMENTARY SCHOOL: WHAT HAPPENS IF A STUDENT IS IN CONTACT WITH A STUDENT SICK OF COVID-19? (STUDENT OF THE SAME CLASS OR CONTACT AT RISK \*)**

**Performing a self-test \*\* immediately**

### **If the self-test \*\* is negative**

- **No quarantine**  
Continuation of courses  
face-to-face
  - **Self-monitoring with two self-tests \*\* on D + 2 and D + 4**  
after the first test
- Declaration on honor to be  
provided to the school by the  
legal representatives attesting to  
the negative result of the first  
self-test and engagement  
to perform self-tests*  
on D + 2 and D + 4

### **If one of the self-tests is positive**

- The student becomes a confirmed case**
- **7-day isolation that can be reduced to 5 days** if a test antigen or PCR carried out at 5<sup>e</sup> day is negative and in the absence of symptoms for 48 hours

### **If the student does not take a test antigenic or PCR**

- **7-day isolation**

**Students infected with Covid-19 less than 2 months ago** can continue face-to-face lessons without testing, unless symptoms appear.

**If a new case appears within a period of less than 7 days,** re-screening is not necessary.

**The legal representatives are given the self-tests free of charge at the pharmacy** on presentation of the letter delivered by the school.

\* Close contact with a confirmed case, without one of the two people wearing a mask providing filtration greater than 90%

\*\* Monitoring can also be done by an antigen test or, failing that, PCR (in the latter case, the result must be obtained before the resumption of classes)
