

Dear Parent and Student,

Jasper High School is pleased to announce the option for students to take Health as an online course during the summer. The online course will be published on Canvas and be open for students no later than June 6 -August 1st. This will be a self-paced course which means students can start the course work any time once the course is opened with all assignments to be submitted by August 1.

It is important to understand that this online course will count towards the student's G.P.A. and failure to complete the course will result in a failing grade on the student's transcript.

The cost of the online Health class is \$10.00. Please make checks payable to Jasper High School.

For planning purposes, the signup deadline for summer online Health class is **April 1**.

If you have any questions please call my office at 482-6050.

Sincerely,

Geoff Mauck
