

Drew Charter School COVID-19 Weekly Case Report (Week of January 8th-14th)

Includes all cases reported to Drew during this 7-day timeframe

When Drew Charter School nurses are notified of a confirmed-positive COVID-19 case, they submit a form to the Atlanta Public Schools (APS) Health Services department and to the DeKalb Department of Public Health. When a positive case is reported amongst Drew students or staff or in an extra-curricular environment, COVID-19 protocols go into effect.

The summary below includes self-reported cases, presumptive positive cases and associated exposures reported in the last week among students and staff screened through on-campus drive-through testing or at Drew’s Elementary Academy or Junior/Senior Academy campus during the school week.

School Campus	Student Cases	Staff Cases	School-based Close Contacts*	Total Students Tested*
Drew Elementary Academy	13	2	0	143
Drew Junior/Senior Academy	2	0	0	192
Total	15	2	0	335

**Includes students who were identified during contact tracing as having close contact with a student or staff member who has tested positive for COVID-19; No students tested during virtual school week.*

Note: A case is defined as an individual with a laboratory-confirmed COVID-19 positive from either antigen (rapid) or PCR (nasal swab) tests; external positive cases are self-reported. Exposures are the close contacts of cases from school and extracurricular settings. Exposures are aggregated from individual case reports and may not represent unique exposures.
