

COVID Positive Cases

Updated January 17, 2022

Fully Vaccinated AND Under/Nonvaccinated

- Please report all positive cases via this link:
https://www.loomischafee.org/cf_forms/view.cfm?formID=1643
- If off-campus when positive result is received, please contact the Health Center and submit the COVID positive result via email to Health_Center@loomis.org.
- Student will need to isolate off campus for 7 days and may return on day 8 if the student's symptoms are improving or have resolved, and they have remained fever free for at least 24 hours without using fever reducing medications.
- Student will need to mask diligently for 10 days

To calculate your isolation period day 0 is your first day of symptoms or if asymptomatic the date of your positive test.

Ex: If positive test or symptoms starting on January 10th

Day 0 = January 10
Day 1 = January 11
Day 2 = January 12
Day 3 = January 13
Day 4 = January 14
Day 6 = January 15
Day 7 = January 16
Day 8 = January 17

- Students who are participating in sports can begin their return-to-play protocol upon return to campus on day 8 with a medical clearance obtained from their own physician or a health center provider. If their own physician clears the student to participate in sports effective immediately without restrictions, the student may do so, otherwise the student will begin their 5-day gradual return-to-play protocol. If cleared by the Health Center, students will complete the gradual 5-day return to play if their symptoms were mild.

ALL POSITIVE CASES WILL NOT COVID TEST FOR 90 DAYS UNLESS NEWS SYMPTOMS DEVELOP
