

1.13.22 Community Council Meeting

In attendance: Brett Sims, Paulynn Hacking, Brenda Bacon, Chris Brower, Jessica Gibbons, Shalyn Drake, April Johnson, Shalice Larsen, J.D. Griffith, Tiffany Stefl, 2 visitors from the community

1. Minutes from November were motioned by Jessica Gibbons. Chris Brower seconded, and minutes were approved.
2. Brett Sims shared he sent out dress code survey results to community but has heard nothing back from community. He asked the council if they have heard anything from the community. Brenda Bacon shared she has only heard people are happy to know that most people are content with knowing how the community feels about the dress code.
3. Mr. Sims asked the council about putting out a survey out to the community about competency-based learning and the LMS. A member shared that they feel parents just need to be educated on Summit (a re-inform) before we send out a survey. She feels the survey could present very different results. Shalice Larsen shared that two of her three students like Summit but one is frustrated by it. Her concern is whether students are actually getting an improved education. Ms. Drake recommended having student body officers or ambassadors create video tutorials about the platform to help educate parents and students. It was also recommended by a member to possibly have the top 3 things parents need to know. It was recommended to see if we can find graduated students and see how successful they are being in college.

To summarize: Survey, re-educate, re-survey, Parent night,

4. Mr. Sims shared that the next dance is Feb. 12. He stated the students are great to jump up and down but they cannot move or (mosh). They will be asked to leave.
5. Meeting was adjourned.
