

## 1.19.22 Update – Moving to Yellow Risk Level

As the number of cases in our region and on campus continue to increase, we need to call our community to increased attention and care for one another by prioritizing COVID-19 mitigation measures. Below you will find a review of current campus expectations, including a few new items related to our Yellow Risk Level.

### **YELLOW – Moderate Risk**

As of Tuesday, January 19, 2022, we move to [Yellow COVID-19 Risk Level, with the following guidelines:](#)

- Masks continue to be required for all individuals during large indoor gatherings. (*classrooms, chapel, indoor athletic/music/theatre events, and dining locations when not eating or drinking, etc.*)
- Community members need to carry a mask at all times.
- Masks are recommended during smaller indoor gatherings. Participants should determine what is appropriate based on the ability to space and individuals' health status. (*Offices, conference rooms, student lounges, etc.*)
- Where possible, host campus gatherings in larger spaces.
- Campus guests are required to wear masks in all indoor locations.

#### **Please review the following campus protocols and resources:**

- Community members should report COVID-19 concerns, exposure, and positive cases to the COVID Response Team ([CovidResponse@BethelUniversity.edu](mailto:CovidResponse@BethelUniversity.edu)).
- Testing Options:
  - After communicating with the COVID Response Team, campus testing is available at the Wellness Center on Monday, Wednesday and Friday mornings by appointment. The cost is \$35, which can be submitted to insurance. Appointments can be made through Student Life (574.807.7217) or the Wellness Center (574.807.7123).

Again, thanks to all for your continued efforts to keep our community healthy.
