REPAIR AND REPLACEMENT PROCEDURES

There will not be a repair and replacement fee associated with student devices. The following terms apply for use of district-owned devices:

Chromebooks: Each student is allowed one damage/replacement free of charge per year (except in the case of theft/lost device) of the device adoption (4 years total), as part the district's purchase agreement with Dell. Any damage or loss beyond the first incident in a single year will be the financial responsibility of the parent. Parents will be billed the cost of repairs and will be provided the opportunity to develop a payment plan to cover repair/replacement costs. Families that do not adhere to the payment plan, or who refuse to meet financial obligations of the program will be referred to a collections agency to recover costs.

Parents who elect to seek independent insurance on the device may wish to visit Worth Avenue Group's website (<https://www.worthavegroup.com/product/>) or speak with their homeowner's insurance.
